CHAPTER 3
UNIFORM CLASSES AND APPLICATIONS

A. UNIFORM FUNDAMENTALS

1. WHERE SHOULD THE UNIFORM BE WORN?
The Office of Field Operations (OFO) uniform will be worn by U.S. Customs and Border Protection (CBP) employees stationed in the field, at the Field Operations Academy, at the National Targeting Center and at Headquarters. Uniformed CBP employees are authorized to wear the uniform while engaged in the discharge of Official Business and while traveling directly to and from the workplace. Additionally, employees may also be authorized to wear the uniform by the Commissioner, Deputy Commissioner, Assistant Commissioner, Office of Field Operations, or Principal Field Officer (Director, Field Operations or Port Director) for other official or CBP-related functions such as award ceremonies, funerals, outreach functions, etc. Employees may also request from the Principal Field Officer (PFO) authorization to wear the uniform for personal functions such as weddings and memorial services. The personal wear request shall be in written form to the PFO and include specific details regarding the event such as the date, location and any potential media interest.

2. WHO SHOULD WEAR A UNIFORM?
In general, CBP Officers and Seized Property Specialists are authorized and required to wear the uniform and to carry a firearm. CBP Agriculture Specialists are also authorized and required to wear the uniform.

Those employees granted authorization to wear the uniform under the Uniform Expansion Program prior to December 8, 2008, are authorized to retain their uniformed status regardless of their Enhanced Retirement coverage.

3. WHO SHOULD NOT WEAR A UNIFORM?
Persons who are not employed by CBP are not authorized to wear the uniform or be dressed in a manner that attempts to duplicate the appearance of the uniform. The Assistant Commissioner, Office of Public Affairs, with the concurrence of the responsible office can approve the limited use of the uniform requested by outside sources, e.g., movie productions, television requests, etc. The request and approval will be documented in writing and the terms of use will be specified. The written authority will be provided to the Contracting Officers Technical Representative (COTR) who will direct the uniform vendor accordingly. Employees are not authorized to wear the uniform in an off-duty status without authorization from the PFO as specified in Section 1 above.

4. WEARING OF THE FIELD OPERATIONS UNIFORM BY OTHER CBP COMPONENT OFFICES
OFFICE OF FIELD OPERATIONS
UNIFORM WEAR POLICY

In order to provide a consistent image to the public and other CBP employees, employees wearing the Field Operations uniform while assigned to other CBP component offices shall adhere to the OFO Uniform Wear Policy and personal appearance standards.

B. PERSONAL APPEARANCE STANDARDS (PAS)

Background: CBP has established the following personal appearance standards for all uniformed CBP Officers and employees assigned to the Office of Field Operations (OFO). These standards will, in addition to promoting the morale and efficiency of the workplace, significantly enhance the agency’s ability to:

- Ensure that all representatives of CBP-OFO project a neutral image that encourages approachability and promotes interaction with the broadest possible spectrum of the public.
- Ensure employee safety.
- Establish and maintain a professional image consistent with the operational needs of the agency and the expectations of the American public.
- Promote positive relations with both foreign and domestic agencies with similar missions and standards.
- Maintain good order and discipline by establishing standards that foster esprit de corps and allow officers/employees to project a positive, professional image that bolsters self-confidence and promotes good conduct.

Uniformed employees must recognize that the public will often judge the effectiveness of CBP based upon first impressions. An employee who is inattentive to his/her personal appearance reflects an unfavorable image not only on him/herself, but also on the agency as a whole.

Uniformed employees are held in high esteem by the public as guardians of the Nation’s borders; they are also highly regarded as role models who have many attributes Americans value including: Vigilance, Service, Integrity, Courtesy and Professionalism. Employees who wear the uniform also wear a badge that conveys a certain level of formal authority. As a result, uniformed employees are held to high standards of conduct and behavior, and must conduct themselves accordingly.

It is imperative to the CBP mission that officers project a neutral image that minimizes public antagonism and ensures approachability by the broadest possible spectrum of the public. Extremes and fads in personal appearance and attire are, therefore, prohibited in order to maintain the highest standards of professionalism, propriety, decorum, good taste and to project an image that encourages and facilitates public interaction with uniformed CBP personnel.
Uniformed employees must be mindful of their personal appearance at all times. A good personal appearance adds to their prestige, and is an essential part of “officer presence,” i.e. officer safety. Where a uniform is required, it should be complete in all details, worn in its entirety, and should be devoid of ornaments which have not been designated to be a part of the uniform.

Certain aspects of the OFO personal appearance standards draw distinctions between standards for male and female officers. This does not reflect any difference in the degree to which it is imperative that male or female employees are well groomed; rather it reflects norms and expectations by the public of grooming standards by the two sexes. These norms and expectations are critical to recognition, cooperation and approachability by the public.

The personal appearance standards, as outlined below, shall apply to all uniformed employees assigned to OFO. Uniformed employees shall be subject to these standards whether on regular or overtime duty, regardless of the activity they are performing. Wearing the uniform in all instances makes compliance with the following standards compulsory.

**Scope:** The standards contained herein apply to uniformed U.S. Customs and Border Protection (CBP) employees assigned to OFO and other CBP component offices authorized to wear the Field Operations uniform. These standards supersede all directives, memorandums and policies previously issued regarding the uniform.

1. Insignia/Awards/Pins
   The badge, nameplate, shoulder patches, and authorized rank insignia must be worn by uniformed employees while on duty and must remain unencumbered at all times. The CBP patches must be worn on both uniform sleeves (CBP keystone patch on the right sleeve; OFO patch on the left sleeve).
Each Commissioner level award is issued with a citation bar. Uniformed employees are authorized to wear these citation bars on the Class 1 Ike jacket as well as the Class 2 and Class 3 uniform shirts. If worn, the first citation bar must be centered ¼-inch above the nameplate. Subsequent citation bars shall be placed directly above the bottom citation bar in the prioritized order displayed in this handbook. They should be pinned individually in top to bottom succession. Employees who have received multiple awards in a single category are only authorized to wear one citation bar for that particular award on their uniform.

- Flag Citation Pin
- Commissioners Valor Award
- Commissioners Integrity Award
- Commissioners Humanitarian Award
- Commissioners Exceptional Service Award
- Commissioners Blue Eagle Award
- Commissioners Unit Citation
- Iraq Service Citation
- Hurricane Katrina Citation
- Marksman Citation

Members of the OFO Honor Guard Team, Field Training Officers, Chaplains, Special Response Team (SRT), Peer Support and K-9 Officers are authorized to wear their respective pins/devices. One pin/device shall be worn ¼-inch centered above the right breast pocket above the nameplate and award citation bars on the Class 1, 2 and 3 uniforms as appropriate. Multiple pins/devices are not authorized. Figures 3-16 and 3-17 depict authorized CBP pins/devices.

Union officials may wear a pin or identification tag (designed and paid for by the Union and subject to CBP review and approval) on the Class 2, 3, 5 or 7 uniform. These pins are only authorized for display centered on the right breast pocket flap of the uniform shirt.
CBP Officers and Agriculture Specialists are also authorized to wear the Flag Citation Pin on the Class 1 Ike jacket or the Class 2, 3 or 7 uniform shirts. If worn, the Flag Citation Pin must be centered 1/4-inch above the nameplate or directly above the highest commissioner-level citation bar. **NOTE:** since this Flag Citation Pin is a representation of the American flag, it must always be worn in the highest position above the right breast pocket of the uniform. Therefore, the insignia pin/device such as Honor Guard, Field Trainer, Chaplain, SRT, Peer Support cannot be worn in conjunction with the American flag pin.

2. **Badges**
   Badges are not provided under the National Uniform Program. Badges are issued to employees through the Office of Internal Affairs.

3. **Mourning Band** - Principal Field Officers (PFO) may authorize the wearing of black mourning bands over the badge to acknowledge CBP Officers and/or other Federal, State and local law enforcement officers who are killed in the line of duty. Additionally, PFO’s may locally authorize the wearing of black mourning bands to acknowledge CBP Officers who died on or off duty. The mourning bands must be solid black in color, cannot exceed ½-inch in width and must be displayed diagonally centered across the badge obscuring the CBP seal, as depicted in figure 3-18. Mourning bands may be worn from the time of initial authorization by the PFO, until the deceased officer is interred.

No other badges, patches, pins, other devices or insignia (e.g. DHS lapel pins, Contraband Enforcement Team badges or patches, fraternal pins, political pins, longevity pins, etc.) are authorized to be worn on any other uniform article, including the badge, at any time.

4. **Longevity Stars** - Longevity stars indicate 5-year increments of total service with CBP or a combination of CBP and heritage agencies (U.S. Customs Service, Immigration and Naturalization Service, or Agriculture Quarantine Inspection Service). Years of prior military service and time spent working in other non-CBP or heritage agencies is not considered when determining the number of longevity stars authorized for display. Longevity stars should be centered on the lower portion of the left sleeve panel of the Class 1 Ike jacket 1-inch above the black trim. Additional stars should be placed in a vertical line extending up the left sleeve spaced 3/4-inch apart from one another center to center. Figures 3-19 and 3-20 below depicts properly aligned longevity stars.

![Figure 3-19 Longevity stars](image1)

![Figure 3-20 Stars on left sleeve of Ike jacket](image2)

Note: 4 stars = 20 years of CBP service

5. **T-Shirts as an Undergarment** – For employees wearing a Class 1,2,3,5 and 7 uniforms, there is no t-shirt requirement. However, if visible, undershirts must be white in color and crewneck in style. Employees wearing the Class 4 BDU uniform
are required to wear the dark blue enforcement style t-shirt provided by the uniform vendor.

6. **Waivers/Exceptions** - Uniformed employees are required/authorized to wear only uniform items provided by the agency through the uniform vendor. Waivers of this policy (including the PAS standards) must be granted and approved only by CBP management. Skirts will be made available to female officers for medical, religious or cultural purposes.

7. **Nameplate Requirements** – The official nameplate is gold-framed with white gothic block letters on a black background, as indicated in figure 3-21. All uniformed employees are required to wear a nameplate indicating their legal last name centered ¼-inch above the right breast pocket (or vicinity if no pocket exists) on uniform shirts, sweaters, and outerwear items. Shirts and sweaters have nameplate grommets to facilitate the proper placement of nameplates on these uniform items. Exceptions to this policy may be granted on a case-by-case basis, and bargaining unit employees may be authorized to wear an agency-issued nameplate with an agency-authorized pseudonym if certain criteria are met as outlined in the National Collective Bargaining Agreement, Article 44: Attire and Appearance, Section 1(K)(1), dated May 11, 2011.

8. **Other Accessories** - Other items that may be worn on the uniform include agency-issued electronic communication devices, keys, glove cases, radio holders, cell phones, baton/O.C. spray holders, ECD holders and Personal Radiation Detectors. Multi-tools, buck knives, and flashlights are authorized for wear with the Class 2, 3, 4, 5, 7 and 8 uniforms if they are black in color or contained in a case that is black in color that can be properly affixed to the official duty belt. These items may be carried in cases that are of nylon, leather, or laminate construction and must be plain black in color. No items, to include radio handsets, are authorized to be clipped or affixed to shoulder epaulettes on uniform shirts, knitwear, or outerwear.

9. **Hemming Requirements** - Trousers can be hemmed by the uniform vendor. However, employees may order and receive trousers un-hemmed and have them hemmed at their own expense. Trousers should be hemmed so the front portion of the trouser cuff touches the top portion of the shoe when the employee is in the standing position, as reflected in Figure 3-22. The rear portion of the trouser cuff, optimally, should extend to the top edge of the shoe sole (it should never extend beyond the bottom edge of the rear portion of the shoe sole).
D. OUTERWEAR

1. Authorized Items - In order to be considered serviceable, outerwear garments must be clean, neat, and free from visible repairs and other highly visible blemishes. With the exception of the trench coat and insulated vest, all outerwear garments, including the leather jacket, must have a CBP shoulder patch on the right sleeve and the OFO patch on the left sleeve. The official shoulder patches are depicted in figure 3-23 to 3-25. Outerwear must also contain the official badge patch on the left chest, with the exception of the trench coat and leather jacket. Previous edition outerwear containing the two CBP patches and/or the badge tabs are authorized for wear until they are considered no longer serviceable. Heritage agency identifiers (i.e. silk screened printing, embroidered badge patches, special buttons, etc.) are obsolete and cannot be worn with the uniform.

2. Badge and Nameplate Requirements on Outerwear - When outerwear is worn employees are required to wear their issued badge (if an embroidered badge is not already affixed) and a nameplate on their outermost garment. The nameplate is...
required to display the employee’s legal last name and must be affixed to the outermost garment centered above the right breast pocket (or vicinity if no pocket exists), as depicted in figures 3-26 to 3-29. Employees are required to wear large rank insignia on the shoulder epaulettes on outerwear items. If shoulder epaulettes do not exist, one large rank insignia pin will be worn centered on the zipper flap 6-inches below the neckline *.

* Gold and silver oak leaf - oak leaf stem pointed down
* Silver eagle – eagle facing forward on the shoulder epaulette and eagle facing right hand of wearer on front outerwear.

3. **Restriction on Wearing Outerwear** - Uniformed employees are authorized to wear most outerwear items indoors with all classes of uniform, except the Class 1

---

Vigilance ★ Service ★ Integrity

Revised 7/5/12
Ceremonial uniform (with which the all weather coat is optional). The only outerwear items not authorized for wear indoors (with exceptions to when employees are transitioning from indoors to outdoors and vice versa) are the raincoat and extreme cold weather parka.

E. FOOTWEAR/HEADGEAR

1. **Footwear Requirements** - Uniformed employees are authorized to wear only footwear that is provided by the uniform vendor. Footwear restrictions are specified in Sections 3.F.1.C and 3.F.4.C of this chapter. Exceptions to this policy are set forth in section E(2) below. Footwear must be plain toe style, black in color, clean, well shined and in good repair.

2. **Footwear Exceptions** - In cases where a special size not currently offered in the uniform catalog is required, employees should contact the uniform vendor’s Customer Service Department (phone number provided on the uniform vendor’s website) in order to make a special size footwear request. Delivery of special sized items requires a minimum of 90 to 120 working days. Additionally, the employee is permitted to purchase with his/her own funds, black, plain toe military-type footwear. While prior supervisory approval is not required, it is suggested that employees first discuss this issue with their supervisor to ensure that the privately purchased footwear is in accordance with this provision. Management may deny an employee the ability to wear privately purchased footwear that after review does not meet this black, plain toe, military style standard. As a general rule, privately purchased footwear should be “confusingly similar” to that which is offered by the uniform vendor. Shoes with unsafe or unstable structure, or with excessively high heels, are not authorized.

3. **Headgear Requirements** – Except as noted below, headgear is only authorized for wear while employees are outdoors. The Class 1 dark blue felt campaign hat, leather hat band, chin strap, and CBP hat insignia are required to be worn with the Class 1 uniform and may be worn with the Class 2 uniform, as depicted in Figure 3-31. Only ball caps with “CBP” embroidered on the front panel and “U.S. Customs and Border Protection” on the back panel, as depicted in figures 3-32 to 3-33 are authorized for wear. The felt and straw campaign hats (with leather hat band, chin strap and CBP hat insignia) and ball cap are authorized to be worn with the Class 2, 3, 4, 5 and 7 uniforms. The fleece hat, knit cap and fur mouton headgear may be worn outdoors in inclement/cold weather conditions.

Employees engaged in “transitional” duties in the Class 3 or 4 work environments, i.e. required as part of their duties to enter and exit a building with great frequency may, for **brief periods** of time, wear authorized headgear indoors, if so doing promotes the efficiency and effectiveness of the agency.

Hats may be required only when working out of doors or where headgear is required for safety purposes. OFO Honor Guard personnel engaged in official Honor Guard
activities are authorized to wear headgear indoors in the official discharge of their duties. Additionally, headgear required for safety purposes (e.g., hardhats) are also authorized to be worn indoors as necessary and appropriate.

4. **Authorized Hat Insignia** - Only the official CBP Hat insignia provided by the uniform vendor is authorized. This insignia is required to be worn on the felt and straw campaign hats as well as the fur mouton headgear.

![Figure 3-33](image3.png)

5. **Official Tie Tack** - Whenever a tie is worn with a long-sleeve Class 2 long sleeve shirt, employees are required to wear the official gold CBP tie tack as depicted in Figure 3-34. The tie tack must be centered on the tie at an even level with the buttons on the chest pockets. All previous edition tie bars are obsolete and not authorized to be worn with the uniform. No other accessory is authorized on the tie.

When worn, officers must wear large insignia pins on the Ike Jacket. When a Class 1 Ike jacket or sweater is worn with a Class 2 uniform, the badge and nameplate must migrate outward to the outermost garment and must remain unencumbered at all times. The nameplate must be worn centered ¼-inch above the right breast pocket (or vicinity if no pocket exists).

Qualified armed officers are required to wear their service-issued weapon, magazines, handcuff case, intermediate force device(s), and gun belt with the Class 2 uniform. The Use of Force Handbook provides more specific information on when weapons and duty gear are required to be worn. Figures 3-40 through 3-43 below are examples of authorized and properly worn Class 2 uniforms.

Vigilance ★ Service ★ Integrity

Revised 7/5/12
In cases where an employee has an approved waiver on file to wear a Class 3 uniform in a Class 2 environment due to a medical condition, employees are required to wear either a tie and tie tack or a turtleneck/mock-turtleneck and may only wear Class 3 plain trousers.

Employees may wear the lightweight or heavyweight sweater with either the long or short sleeve version of this uniform. Employees must wear the plain, or Velcro overlap trouser belts with this uniform. CBP employees may wear any footwear option provided by the uniform vendor except the boat shoes with this uniform. Employees may substitute white sole black socks for plain black socks (the white portion of the sock must not be visible). Employees may wear the straw campaign hat, ball cap, knit cap, fleece hat or fur mouton headgear with this uniform when outdoors as appropriate for existing weather/climate conditions.

When an immediate operational need exists, on a limited case by case basis, CBP managers may temporarily authorize officers to wear the Class 3 uniform while working in a Class 2 environment. This authorization should be non-recurring in nature and limited in scope to satisfy an immediate and necessary operational requirement. Example: Management determines there is an immediate need to assign employees in cargo environments wearing Class 3 uniforms to work temporarily in an airport passenger processing facility due to an unanticipated staffing shortage. However, employees will not be permitted to wear the Class 3 uniform in a Class 2 environment on a regular and/or recurring basis.

Employees may wear this enforcement style t-shirt as their outermost shirt when they are actually engaged in cargo examinations in the Class 4 uniform environment. Upon completion of this work, employees are required to wear the Class 4 shirt over the enforcement t-shirt. PFO’s will be held accountable for strict oversight and enforcement of this policy.

- Pull your pant leg up over your calf to use the twisted blousing bands, which have wire-hook fasteners and can be applied without removing your boot.

- Pull your sock up and wrap the twisted blousing band around your leg above the top of your boot, then secure the wire hooks.
