University

Jeffrey K. Delo, P.E.

Vice President

Chief Electrical Engineer

Professional Experience:

In addition to Jeff's role as Chief Electrical Engineer, he is leading Summit's quality control program. Jeff places the highest emphasis on understanding the particular requirements of individual projects in order to provide the appropriate design solutions. He has been a Principal at Summit Engineers, Inc. for the past 21 years.

Jeff's career achievements as Chief Electrical Engineer and Senior Project Manager, include the design and management of projects comprised of site development, park infrastructure, recreation centers, waterparks, swimming facilities, corporate headquarters office buildings, computer centers, restaurants, retail centers, senior living facilities, multi-family housing, hotels and museums.

Jeff's multi-disciplinary engineering education has enhanced his ability to provide total project coordination. A working knowledge of HVAC, plumbing and site systems as well as construction administration experience allows Jeff to meet and exceed our clients expectations.

AREAS OF PROFESSIONAL COMPETENCE

Electrical Engineering Design

Lighting Design

Energy Analysis

Construction Administration

Project Management

Fire Alarm System Design

Telecommunications Systems Design
