

over 100 years of innovation

SB2 indoor cycle

The SB2 is a premium indoor cycle with a proven design and true road bike feel. It boasts a durable steel frame and reliable craftsmanship, from the friction resistance system for greater workout variety to the heavyweight flywheel for added momentum. The micro adjustable seat and handlebars ensure a custom fit and the motivational console provides plenty of user feedback.

- High inertia 40 lb flywheel provides a consistently smooth workout experience
- Motivational performance console displays speed, RPM, time, distance, calories and heart rate
- Polar® wireless HR compatible. Use a Polar heart rate chest strap to readout your HR on the display console or interact with built-in HR control programming
- Top-down friction resistance adjustment with emergency brake for infinite adjustability and safety
- True road feel chain drive system simulates outdoor cycling
- Micro-adjust up/down and fore/aft seat slider and racing style handlebars to accommodate any body type
- Convenient frame mounted water bottle holder (optional handlebar mounted water bottle holder sold separately)
