HISTORIC SITE SURVEY

Nick Beedie who has been assigned by Locala as our technical support regarding the preparation of our Design Code reported that he had made a site visit and had spent the day looking at our historic core. He spent time in Upper Hopton, that being Mirfield's only conservation area. He looked at Lower Hopton, the area between the river & canal and the town centre. Bing Maps has proved to be a helpful site for looking at aerial photos of the town. He will complete the characterisation of the northern half of the town in due course; and will continue working on the report.

Action Points
