

BRANDON BARTHROP INTERVIEW

QUESTION 1. Alright Brandon. Tell me the story of how you got saved.

I got saved in October of 1999 after I had been court ordered to MN teen challenge for drug dealing and violence. While I was in Minnesota Teen Challenge I immediately began manifesting demons. I had been deep in the occult and didn't believe in God and was not raised as a Christian whatsoever and knew nothing about God. And through deliverance and having many many demons cast out, I experienced the Holy Spirit in a very manifest powerful presence and way ..and confronted all my darkness and drove it out, and I realized that Jesus was Lord as 10,000 watts of electricity surged through my body for three straight months. That was my born again experience. Glory to God. When I was born again, it physically completely changed my body. My complexion changed, my countenance on my face changed. My mom did not physically recognize me after I was born again, because I was such a demoniac as a warlock before. I was deep into the occult and astral projection and necromancy and relationships with demons and sorcery and curses and different things of the necronomicron, the knowledge of the dead that I had through being a warlock and of relationships with evil spirits. My belief system was that God had created things, I mean I kinda believed that but the demons keep you so confused that it was warped. That God had abandoned creation and had left it to Lucifer and the angels, and there was no other thing out there. I had never seen miracles, signs, or wonders or healings. I had never heard of speaking in tongues. I had never seen any Holy Spirit supernatural activity in my entire life...or none that I could perceive through my darkened lense of sin and demons. And, so when I was born again, light came so brightly to me that I was actually blinded. I couldn't open my eyes, I squinted, I was paralyzed, I could not move, I had no use of my body parts for a period of time. And I was blinded as well and I had to be carried out by two pastors

out of Minnesota Teen Challenge chapel where I first was born again at the end of October 1999. And when I came to, and was actually able to talk after two and a half hours of deliverance of them casting out evil spirits, I was so mind-boggled, and I felt so ripped off that this reality of the kingdom of God had been hidden from me my whole life. I was so angry at the devil, and I was so angry that I was so deceived by darkness, that I acknowledged this is the Truth, Jesus is Lord, and I repent, and I acknowledge that I am a little baby in spirituality as a Christian. But I immediately began manifesting all the nine gifts of the spirit: words of wisdom, interpretation of tongues, words of knowledge, all of the gifts of the spirit...miracles, healings began to flow through me, I immediately was seeing spiritual and open visions, including several of Jesus dying of the cross, even the very first day I was a Christian at Minnesota Teen Challenge. It was a radical transformation; he gripped me 'cause I was very spiritual in the demonic and would see spirits, but never angels. I never saw an angel. Even though angels had come around, I was so blinded, so demon possessed that I was never allowed to see Heaven. I only saw hell my whole life until I was 18 at Minnesota Teen Challenge. And then I was introduced into Heaven and born again in Heaven. And Heaven began to manifest through my life.

And while I was in Minnesota Teen Challenge for 22 months from October 1999 to August of 2001, I saw miracles, healings, signs and wonders of every sort, holy laughter, every type of revival phenomena. I would see demons cast out of people almost on a daily basis. I saw people healed of AIDS, cancer, tumors, diabetes, there is not a miracle that I did not witness during that time because the most extreme drug addicts and diseased sex addicts would constantly come and flow through the program, so there was always that desperation for God to move, otherwise they would die. And so that kind of hunger and desperation always produces miracles. So that was my first 22 months as a Christian. And I got to participate after I was

cleaned out and delivered. I was baptized in the Holy Spirit sovereignly in my room alone, and I felt waves of peace begin to billow through my body, and I began to speak in unknown tongues – diverse sorts of tongues. And I didn't know anything about tongues. It was a sovereign move of God upon my life, as it was Him getting me into Teen Challenge, delivering me, and filling me with the Holy Spirit with all kinds of manifestations of the Spirit then pouring forth through me. And, so after I was cleaned out, I got to participate with all the miracles, signs, wonders, healings that would occur at Teen Challenge on a daily basis, and I got to cast out demons out of hundreds of people. I got to lay hands on the sick and see them recover. I got to preach the Gospel. I got to give my testimony at a couple hundred churches over a 22 month period of time because the Teen Challenge choir would go every Wednesday to a different church and every Sunday to a different church as the Teen Challenge choir travels and testifies and gives all sorts of testimonies to the power of God.

And so that was my discipleship. I was disciple by brother Earl Gilchrist, a mighty prophet of God who is in charge of the educational program at Minnesota Teen Challenge. Mighty man of God. He was there that day I was born again. Drove demons out of me, and he was there discipling me during my six month internship after I graduated the program. And he was very strict, very much a disciplinarian in my life, and he played a significant role in the formation of my relationship with God and discipling me and even into the supernatural, but really grounding me in the Word of God. He is a very powerful prophet and still works at Teen Challenge in charge of the educational program to this very day. And so I just honor him as a spiritual father in my life. And so I was discipled by him my entire stay at Teen Challenge. He was an ex-gang leader, ex-pimp, crack dealer and was converted to Christianity while imprisoned for manslaughter. And he is just a mighty man of God with a mighty testimony of the

saving grace and deliverance power of the Holy Spirit. And after I came out of Teen Challenge, the Lord literally only opened one door to me. And that was to North Central University, and I had a full ride scholarship from Teen Challenge and grants and other sources that gave me significant prosperity in every aspect of my life going into North Central from Teen Challenge. I moved straight from the Teen Challenge intern apartments into the dorms at the North Central dorms at 4E Carlson. And I was roomed with a homosexual and a demoniac, who would consistently manifest demons on me right away when I moved into North Central University. So, I was not surprised, although I was surprised at how un-Spiritual and un-righteous those who were going to Bible college and studying to be pastors were. I thought it would be much more of a revival environment like Teen Challenge, but it was opposite that. It was extremely demonic.

Q- In what way would the homosexual/demoniac manifest?

He would complain about chest pains. He would twitch in his neck and his head. He would complain just about the torment that he was spiritually and physically feeling from this evil spirit, this Hermes homosexual demon.

Yeah that was my first roommate that I had for a year, and he had a full-blown manifestation where the Hermes demon actually surfaced, and I said...you know and I came from Teen Challenge where I was trained in deliverance, so I was a deliverance minister in Bible College, even though I was a Freshman. So I was there, and this thing, and they would manifest on me all the time at North Central or at Teen Challenge because I came out of the worst kind of demoniac situation as a warlock, so I was really well trained in deliverance. And I had seen it many many many times, and so when this thing manifested, I said, "The Lord is upon you and will deliver you from this thing," and he said, "no! I don't want to be delivered. This is my

identity,” and he held onto it and he was later expelled from the university for homosexual relations and later became very antichrist and rallying against Christians who were not for homosexual marriages and stuff like that.

So, I understand that not everyone’s situation is not that extreme, but because of my calling in my life as an apostle, it has always been the worst attacks from the devil to try to shut down what the Lord was doing in my life. So not everyone’s experiences at North Central are the same, because they vary depending on their calling; how much the Lord is going to use them, how much they are going to affect others for the Kingdom of God, and so the devil can always see potential, and he’ll try to shut it down. So my testimony is extreme. I am not saying that everyone’s experience at North Central is negative by any means. I am saying that *mine was* because of constant bombardment and attack from hell to try to shut down what the Lord was doing in my life because it has always been extreme in every which way.

Brandon saved 3:

I can also testify of a miracle during the deliverance process when I came into Teen Challenge. I was completely strung out on drugs, and I was perma-fried, which is a term that means I was in a continual LSD hallucination state. I’d see tracers, everything would be blurry, it was like I was always on LSD because of the amount of LSD I had taken before Teen Challenge. When I went through deliverance, I was instantly healed of that brain damage. It was a creative miracle in my brains. Hehehehe

Chris: As a Christian, when was the first time you were involved in confronting the powers of darkness?

Brandon: well, immediately upon being a Christian, I was confronted with the powers of darkness. Jesus says when a spirit is cast out of a person, it goes into arid dry places, and then returns to where it was cast out with 7 spirits more wicked than itself to see if it can get back into its host body. So all these evil spirits that were cast out of me tried to come back. And I was filled with the Holy Spirit, the Father's love had filled me. But when they came back, I could feel them all over my body, horrendous fear, and this was a process that went on for about 3 months in Teen Challenge. So immediately, the day I was born again, the battle started against the hordes of hell. And the devils didn't want to let go of me, but they had to because the blood of Jesus defeated. So spiritual warfare has been a constant theme my entire life, even when I was an infant in the crib, my mom said she would hear guttural voices coming from my crib, so the struggle over my life has been really since the time I was in my mother's womb, because like Bob Jones says, the Lord has chosen the best seed of each genealogy for this end of time generation. And so, the devils can see potential and will war and wage war for that human soul to corrupt it, so it cannot fulfill its destiny in Christ Jesus. So the spiritual warfare....I was under attack, bombarded, my entire life. I just never had my offense, which is the sword of the spirit, the word of the Lord, the rhema word of God from my mouth until I got saved at the age of 18, but then I was able to begin completely slaughter my enemies and triumph over them consistently, and learning and growing in spiritual warfare to the place where after Bible college and after a time of the dark night of the soul at North Central University when God had launched me out to Inner-city missions work, he would have me battle much larger demons. One including a demon of witchcraft which I battled against, and the lord brought me to the Witch's Hat tower which was the highest elevation place in Minneapolis, and was after a night of ministry to gang members and warlocks and occultists and Muslims in the West Bank of Minneapolis Cedar

Riverside area at Hard Times Café, where I ministered daily in my first 16 months where I first began inner-city missions work.....and of training and righteousness, and growing in the anointing and growing in the Open Heavens. And after a night of ministering there, the Lord said I want you to go to the Witch's Hat tower. He didn't give me an explanation. I was also with a co-worker in Christ, and the Holy Spirit told her the exact same thing. And so, we knew that we were supposed to go. It was 4 o'clock in the morning and we went to the Witch's Hat tower. I did not know at that time that was the highest elevation place over the city of Minneapolis because the Bible speaks of high places and whether they be ruled by darkness or light depends upon the remnant in that region. And so the Lord obviously wanted this high place because when we walked towards it, I went into an open vision, and a scroll appeared to me, and opened, and I saw in the Spirit in real-time, and there was a black angel there. And it was the size of probably a city block, and it had silver talons, and it was perched like a crow ontop of the water tower, on the top of Witch's Hat tower. And the Holy Spirit said, "This is the principality of witchcraft which resides over the city of Minneapolis." And I saw all these eyes around it which were different types of demons and evil spirits. And I'm looking at this thing, then the scroll closes, and the Holy Spirit rises up in me, the Spirit of the Lord, the manifest presence of the Holy Spirit came upon me like it came upon Samson and I began to declare proclamations and decrees, binding this principality in the name of Jesus in chains, as it is written in Psalms 149. "To bind their kings with chains and fetters of iron." And so this thing became bound in chains by the decree of the Word of God from my mouth because the Heavens of Heavens belong to the Lord but the earth he has given unto the hands of men. That's in Psalm 115. So we have all dominion down here. And so the Lord will act and exercise dominion through human flesh, because He has given all dominion into our hands as a body of Christ in the earth.

And so after I bound this thing and cast it to hell in chains never again to rise, the whole atmosphere which had smelled like marijuana smoke and urine, changed to a fragrance of just a very sweet aroma, like a wonderful smell. The whole atmosphere had shifted. Even naturally, the smells changed and it was electrocuted. It was like an electrocuted rarified air that filled that whole top of that hill which was the high place of Minneapolis. This whole ordeal took about 15 minutes, but in that kind of realm, deep in the Spirit, there is no time or space, so I mean it felt like it had been hours, but in the natural it had been only 15 minutes. And then D___ came over to me and I asked her, and I was discipling her at the time, and I said, “what have you been doing?” and she said “I have been praying against the spirit of witchcraft.” And I knew that we were both sovereignly used by the Spirit that day to destroy the main principality over the city of Minneapolis. Immediately after that time, a major gang leader became born again, and many doors began to open for our ministry, so we began to see the fruit of what happens in the spirit realm when the Kingdom of God advances and how it naturally manifests in the natural realm. And right about a year and a half or exactly one year after that, a Christian coffee shop opened up across the street, as a natural sign of what had been spiritually been done in that region. Overflow. Hehehehe. Overflow Café. The witch’s hat tower is across from the street of the Overflow café. Always when great significant breakthrough happens in the Spirit, you will see the repercussions of that breakthrough in the natural because the natural is simply a mirror or a reflection of the eternal spirit realm.

Very impactful event Q4—

Brandon: So this is a miracle that took place before I became a Christian, two months before I went to Minnesota Teen Challenge. I was living in W____, Montana. I had taken two double-

dipped sugar cubes of timothy leary acid, very potent LSD, the night before, and I was strung out on acid, and hallucinating, and it was a bright sunny warm day, August of 1999. And I was so completely hopeless, I had been searching for the meaning of life my whole life, desperately trying to find answers of why my life was so miserable, why... I had lived in 24 different states before that time, I had gone to four different high schools. I had girlfriends overdose and die on me from drugs. I had witnessed all kinds of atrocities. I had witnessed the best of what I thought humanity had, and the worst. And, my dad's a Vietnam vet so I grew up with nightmares, and tremors, and all kinds of horrible things and just... many different things that showed me how miserable a place the world is, and I had literally thought there was no point to life.

So I had just given up all hope, and I was strung out on drugs and I wandered through this park at 7 o'clock in the morning and I hadn't slept, 'cause when you're high on acid, you can't sleep.

And I was going to go to this bridge, and as I go to this bridge and jump off the side of the bridge, I go over the balcony, or over that handle-rail that guards the bridge. And I'm sitting on the corner of the bridge over the river, and there's all kinds of metal pieces, and scrap metal and sharp pieces coming up out of the water. And I had a demonic vision..Everything was black and I saw myself falling off the bridge and I saw myself getting skewered on the metal pieces that were coming out of the water right below me. And there was such a demonic presence, that I actually began to, and normally I'd be so prideful that I wouldn't take my life. But I was so strung out on drugs, and I was so demonized, that I began to slip off the corner of the bridge and as I'm slipping, these two little tiny children...and there is no one around anywhere...it's 7 o'clock in the morning. It's in the middle of a park right outside downtown W____, and there's no one anywhere. And two small children, probably the ages of 5 and 7 run over the grassy hill hill and start yelling at me, "Hey mister mister, what are you doing?" And I'm literally slipping off

the edge of this bridge to the jagged scrap-metal below, and I'm literally about to fall off when they come running over the hill, saying, "Mister mister, what are you doing?" And the second they start running towards of me and yelling at me, a bolt of hope of light came into my body and I remembered my two brothers which are the exact same ages of these two, and the same sizes of these two who are back in Minnesota. And I have two natural brothers and two natural sisters. And hope shot through my body, and reality came to me, and I'm like, "What am I doing? I have family. I have brothers." And I jumped over to the railing and I started walking with these two little children who kept talking with me, getting me back into reality. They were speaking with me, having conversation with me so fast, they were so hyper, they had so much energy. And they kept talking about all this stuff, and like my mind just started to settle back into the natural, and back into reality, and it wasn't in this place of hopelessness and suicide. And the second we got over that hill that they came from, I looked around and they were gone.

And I became enraged. And I knew in my spirit – And I hadn't been converted yet – that God had sent angels to help me. And I became enraged towards God, that he would love me so much as to send angels to help me, and I didn't even believe in any of this stuff. But supernaturally inside me, because the gifts of God are irrevocable, I knew that God had sent angels. And so, two months later, I was actually court-ordered three states away into Minnesota Teen Challenge, where I actually met the Lord who had saved me that day and had sent his angels to rescue me.

Tell me a story where God used you in supernatural healing which was a story that brought people to know Jesus alot-

Brandon –

This was, lets see, I think it was September of 2007. I had been working with several church plants and different doors had opened for me to work with many different types of groups of Christians. And I had gone to this church, and I was ministering to a man who had come out of deep hopelessness and drinking and smoking and gambling addiction, and he listened to a lot of demonic music. And so I was helping him get his life restored, and I walked into this church and he said “man my back is hurting me”. And he was like a tile-setter and had all kinds of back problems and, he had the x-rays to show where there was literally cartilage missing between four different vertebrae in his back. And when he said, “my back is hurting me,” I didn’t ask what it was. I just simply declared, “In the name of Jesus Christ be healed.” And instantly his pain in his back went away, and two weeks later he went back and got his x-ray, and the cartilage had been recreated in his spinal cord. And he had a brand new back.

People coming to Jesus...

Ok, here’s one. This was 2007, I was at Hard times café, and this isn’t necessarily a healing miracle, but it’s the gift of the word of knowledge, and there’s a group of muslims hanging out at the Hard Times Café, like there always is. There’s two mosques right there on the west bank of Minneapolis, and the Holy Spirit, when the Word of Knowledge comes, it’s not like you have control over it really, it’s just like “boom” you speak things, secrets of a persons life that just come out and I said to this Muslim guy. You grew up in Kenya, in exile, and you’ve seen many signs and wonders in Kenya, which is a Christian country. And you know this Gospel that I am speaking, and you know that it’s true. And it wasn’t a ton of detail about his life. It was kinda where he had grew up and what he had seen and what he knew about Christianity. And he was so amazed that I had supernaturally spoken to him. Where he had come from, what countries he had

lived in, because you know he's Somalian, but how did I know about Kenya? He was blown away. And so these muslims saw a great demonstration of the supernatural power of God. And many muslims had received the Lord Jesus, not necessarily because the Word of Knowledge, but because of the constant miraculous realm of open heavens that I had carried into the west bank for a long period of time. And they had seen the demonstrations where people were completely gripped by the anointing, by the glory cloud, and by the open heavens that I carried by grace, and different muslim people would be arrested at times, literally unable to move their bodies, and they would just allow them to pray for them and look deeply into their souls into their eyegates, and prophesy into them their future. And a lot of these muslims would disappear out of their life of gangs, and crime, and alcoholism from the West Bank, and I'd never see them again, but the Holy Spirit would tell me, that now He's beginning to train them in the School of the Spirit, and that many Muslims were getting born again. And He showed me a vision that they were like spiders in a web, in this demonic religion, that the spiders had been let on fire, and soon, because they were secret Christians inside their mosques, and inside their families that all the webs would begin to burn with the fire of God because of these converted Muslims to Christianity, who are secret Christians in the West Bank where there are 25,000 Muslims today. And many are secretly Christians, and have lives and relationships with God, and visions and dreams are frequent occurrences among the Muslims in the Twin Cities. And because of my underground work with them, I know of a lot of secret Christians amongst them today.

Tell me an instance of the powers of darkness being blown away by God's awesomeness –

Many many times the Holy Spirit wanted to confront different warlocks, people that were used for the kingdom of darkness in Minneapolis, so I have had many confrontations with warlocks during my first sixteen months of full-time street ministry. And one of them was this warlock in uptown who had been involved in the occult for I think he said 20 years. And he had so many spellbooks, incantations...In Christianity, you can really tell the difference between someone who has spirituality which is righteousness and someone who is just posing. And it's the same with the kingdom of darkness. You can really tell who really has relations with the dead or who is just a poser. Some of these guys were such portals for hell and had been for so long, that they would like a magnet be attracted to the very thing that was trying to close the demonic portals. So I consistently had confrontations with warlocks during this time. And this one warlock from uptown approached me as I was doing street ministry near Hennepin and Franklin. And he comes right up to me, I can feel him come right up to me from two blocks away in this spirit, and he says to me, "What are you doing?" Ok? I didn't know his name...and I said, and I looked at him, and he had all kinds of pentagrams and upside-down crosses and skulls and stuff wrapped around his neck, and chains and necklaces and occult paraphernalia. Demons love to attach themselves to different demonic jewelry. And I looked at him, and I told him that the portals to hell are being closed in all the city of Minneapolis, and now the portals to the third heaven are opening. And he said, "yeah, I know, all my portals for relationships with the demons in hell below in the underworld are closing and I don't have communications with them anymore." And so I told him what the Lord was doing in the city, just one spiritual person to another spiritual person. And it's almost easier to minister to these warlocks who are spiritual than intellectual Christians who are unspiritual, because they just don't understand the ways of the spirit and the spiritual realms and spiritual realities. And so I got to share with him all the things that were happening in the

spiritual realm, and he testified that these things were happening, and he was not even a Christian. He was just someone that had, because the greater spiritual reality had manifest, he ultimately had to submit to it, even if he didn't like it. So he ultimately was submitting to me, testifying that this is exactly what was going on in Minneapolis. And I got to share with him the priesthood of Melchizidek and why I knew these things, and why I understood them, and how I had dominion in this area over all these portals. And the Melchizidek priesthood is the priesthood of Jesus Christ, which is written in the book of Hebrews, which describes the priesthood of the new covenant, the priesthood of Jesus Christ, which is the priesthood of spirituality, of righteousness, which is relationship with Papa, the Living God, and ministering with all these angels in this Open Heaven. And so I recommended the book of Hebrews to him, and to read it, and instead of from a religious perspective, read it from a spiritual understanding that this is a more powerful book than all the scrolls of sorcery in the world combined. And later on, the Holy Ghost had me later meet up with him, and he had read the book of Hebrews, but he was still struggling with greed. And so it was more of a soulish thing for him of pride and greed thing than it was for him wanting the truth. He was just an evil man, and even though the truth had manifested to him and he had seen the superior supernatural reality of the kingdom of God, he still did not give his heart to the Lord. Another warlock that I confronted was at Hard Times Café. And this warlock was a real seasoned warlock, and so we, immediately when he came in, ya know, light and darkness confronted each other. And so instead of him going anywhere, he came right up to me. And so we talked for like two hours, and he discussed how the benefits of his sorcery and warlocky were better than mine, and blah blah blah blah blah, and used just a lot of intimidation techniques to try to destroy my righteousness, which is the Lord, so it could not be destroyed. So, it was almost a mockery to him, because he had invested all his time and all his

energy into this sorcery and to this occultism. And, he was a real demoniac, but all that effort combined was nothing to even my foolishness in Christ. 'Cause we (Penny and I) were just joking around, and just by our sheer laughter and joy, and just by having joy, was able to like a little child, able to destroy his wickedness, to the point that he became so frustrated, he couldn't even talk to us anymore. He became so defeated, and his devils got so destroyed that he actually gave up even talking to me, and actually began casting his spells and sorcery spells on weaker Christians who began to experience horrible spiritual warfare. And they were testifying that this warlock that I had confronted and destroyed with ease just because of by child-like faith and just the joy of the Lord being my strength, and not relying on myself for anything but the Lord to do everything, I could so easily defeat him. But these other Christians who are still so much in their own strength were getting beat down by his demons. And so it really testifies that we don't have any righteousness of our own. When we really on the Lord for all our righteousness, and we have no good thing in us except the Lord who lives through us, then we can easily destroy the works of the devil out of rest, and never out of striving. And so that was the lesson that we learned that day.

Chris – Is there anything else you think would be important to say?

Brandon – Yeah I got one. This just came to me now. Yesterday, the heavens opened up, and I saw many visions. I saw two doors that were outlined in lightning to the left of me. I was really caught up in the Spirit. The Lord's been doing a wonderful work of the sanctification of the soul so that my imagination's pure so I can really really go deep in the spirit. And these two doors were like ancient doors, and there was a lightning border around both of them. And I flew through them in the spirit, in this vision. And it was like an open vision, but it's really hard to

explain. It's almost like a trance. And as I flew through these two lightning doors, I saw way up in the distance the tree of life. And there was many little paths that were going upwards to it, but I only saw one that actually met with the roots of the tree of life, which I know are the seven spirits of God. And as I flew up toward the tree of life, I settled underneath this tree of life, and I began to eat its fruit, which I know is the Father's unconditional love. And as I was sitting under the tree of life, a bow, like a rainbow came out of the top of the tree, and went right to God the Father. And I was lifted above the tree, and that's where God the Father is. And then I was taken in the spirit over a land mass, and it looked like rocks and it looked like a boot. And I didn't know what it was. It just looked like a rocky thing; it was a land mass. And I'm there and I'm looking over it from a long distance kinda like from outer space down looking at it. And I came closer and the Holy Spirit said, "This is the nation of Italy." And I saw the outline and the rock formations. And He says, "Do you want Italy?" And I said yes. And He says, "Stand up." He says, "I will send you as an apostle to Italy." And so He, the angel came and put it in my mouth, the nation of Italy. And I swallowed it. And he says, "I imparted this to you, this mantle, this commission, in embryonic form. And so now it must be watered by the rains of the Spirit, by the water of the Spirit, to bring to maturity before you will go do great exploits." So, this is often how the Lord commissions people. He will first have a spiritual experience. That word in the greek, "testify," means what you've seen and heard. So if you've not experienced the spiritual reality. If you've not seen or heard the spiritual thing, then you are not really a testifier, because you can only testify, according to the word, "testify" in the greek, to what you have seen and heard with your eyes and your own ears in spiritual encounters with the living God...and with the angels of God and the living creatures and the beings and the watchmen. So this is real apostolic commissioning going on, and we are an apostolic generation. God has released

genuine prophets into the earth. Prophets such as Bob Jones and many others, Bobby Conner, who have prophesied tremendous things in the natural, way before even NASA could see them. Or any kind of weather channel. And with the restoration of the prophetic, now comes the restoration of the true apostolic. And so, although these apostolic leaders are Joel's Army, they are being brooded over by the Holy Spirit, like a mother hen over eggs, bringing them into maturity, and as the mother eagle pushes out the eaglets, out of the nest, so these ones will be pushed out over that brooding place where they are brought into maturity, and then they will fly. And the Bible says in the book of Daniel, "those who know their God shall do great exploits." But it comes only after a season of maturation and the brooding of the mother hen, the Holy Spirit. And the seven Spirits of God (Isa. 11:2) beginning to flow freely through these won souls who are glorified, who are the sons of God, the sons of the Kingdom – Matthew chapter 13, that they will go on and conquer the earth with what's already been conquered by their king whom they are loyal to unconditionally, Jesus Christ. Spiritually it's been finished, now they will go and do the great exploits like Joshua after Moses, conquering all the giants in the land, which are principalities, powers, thrones, and dominions, which will all bow their knees to the Lord Jesus Christ through this man-child company which are the manifested sons of God.
