

The Dharma Horses & their stories

Hank

Hank helped to start the riding program at Dharmahorse in 2010. He taught riders and led trail rides and gave great hugs. He returned to Tularosa to get Veterinary care for some tumors that were removed and never returned! We get to have him visit occasionally.

Jimi

Jimi came to DH when he needed a new home. He had a popped knee and could no longer jump. He went to another stable after running away with several students! Katharine has judged Dressage tests and donated the proceeds to Jimi's hay fund.

Susie

Susie belongs to our friend in Organ where Majic lives. She had a catastrophic accident in 2008 that destroyed part of her front leg. Katharine cared for her after that injury and today, she can canter on three legs and is "special needs" but fully happy. She was a BLM captured Mustang at age 3 years! She is very tough.

Peppia

Peppia is boarded at DH and helps us do some lessons. She is a very wise and beautiful mare who has been a careful trail horse. We are all enjoying getting to know her!

There have been many other horses who have come to Dharmahorse for short periods of time for healing or to find a proper home. Now, as a Sanctuary, the horses here are here to stay. Katharine has rescued literally hundreds of horses through her career and she believes that all horses are beautiful.
