

**Reviews 2015** - For whatever reason, my patients do not often write on Review Websites like YELP or Google so after each appointment, we email our patient's to obtain their critique of how we performed. Most of their replies give us an Excellent Rating. A percentage of those surveys also give us written feedback in the "Please leave a review for your provider" section. Please Note: These are unedited and for honesty, I will post the "good and the bad"

I can't begin to sing the accolades of Dr. Gordon and his entire staff -- from one who grew up with poor dental care - I can tell you that the entire team is most respectful of concerns/time/schedules to ensure that your welfare is taken into consideration for long term maintenance, viability, and health -- no shortcuts but complete commitment to develop a plan for long-term preventive care -- They are simply the best and you are embraced the minute you walk into the office! Kudos to helping me have healthier teeth, gums, and a beautiful smile—JG

My wife and I have been clients for many years. We are considering moving out of the area sometime in the not too distant future and the thought of having to change dentists may be a deal breaker.

9/29/2015 – Barbara

Dr. Gordon is a terrific communicator, a caring dentist, and a brilliant technician. He is always on the cutting edge of dental technology to give his patients the most effective treatment. His entire staff give patients the very best dental experience and help. I've been a patient for 30 years and if I am out of town, unless there is a dental emergency that must be dealt with, I never go to any dentist but Dr. Gordon.

9/29/2015 – Joel

Dr. Gordon is amazing. I called his office yesterday, stating that I chipped off a part of an on-lay, or crown. His receptionist, Sherry, was courteous and understanding and found a time for me to see him the very next day. I told Sherry to let Dr. Gordon know that I was leaving the country in two days, fully expecting some quick fix and then having to come back for the real deal upon my return from vacation. Instead, without prompting, Dr. Gordon found my records for the last on-lay crown, had one made so it was ready on my arrival, and then--in just 30 minutes--took out the remains of the old on-lay/crown, put the new one on, and made the necessary adjustments. Zero pain, total courtesy, and total professionalism. He is a pro, a dentist's dentist, and his staff are polite and willing to help in any way they can.
