

EMR Recertification Policy and Procedures NREMT

PURPOSE: To establish standard requirements to be met by all applicants seeking to become recertified as an Emergency Medical Responder in West Virginia.

POLICY: To ensure consistent standards and procedures for recertifying as an Emergency Medical Responder (EMR) in West Virginia.

PROCEDURE/REQUIREMENTS:

- A. West Virginia EMR certifications shall expire September 30.
- B. Submit a current complete online application to WVOEMS between January 1 and June 30 prior to the end of the applicant's certification period. Online application available at www.wvoems.org/ecert. The application deadline is 90 days prior to expiration. Example: expire September 30 must submit by June 30.
 1. Submit the appropriate fees as required in WV §64 CSR 48-6.9.
 2. Continuously meet all requirements for EMS personnel as described in WV §64 CSR 48.
 3. Disclose any limitation or exclusion by any EMS agency, EMS Medical Director, or any other healthcare profession certification or licensing authority in any state, territory, or the U.S. Military Services.
- C. **West Virginia Recertification Course** – All West Virginia certified EMRs are required to meet recertification course standards as outlined below. Satisfaction of West Virginia recertification course standards may be obtained through either of the following two mechanisms:
 1. **Successful completion of the National Component of the National Registry's National Continued Competency Program (NCCP)**

-OR-

 2. **Successful completion of an EMR refresher course approved by WVOEMS. This course consists of 3 modules. (The approved EMR refresher course shall satisfy all topic requirements as outlined in the**

EMR Recertification Policy and Procedures NREMT

National Component of the Registry's National Continued Competency Program (NCCP) and may be used to satisfy the National Component for National Certification.)

Both options require completion of the WVOEMS State and Federal requirements per respective policy. Application of hours to meet the National Registry NCCP model in another state SHALL NOT constitute meeting the requirement for State certification in West Virginia.

Skills assessments are required for each discipline and will be validated through Medical Director verification in the National Registry online platform. Skills at the EMR level may be completed through a WVOEMS approved training skills module.

If utilizing the WVOEMS Modular Recertification, providers must complete all three **(3)** modules of the WVOEMS approved refresher course. These modules shall be submitted in Continuum.

Application of hours to meet the National Registry NCCP model in another state SHALL NOT constitute meeting the requirement for State certification in West Virginia.

D. Additional Continuing Education – In addition to maintaining National Registry certification, providers must show proof of completion of the following courses in the National Registry State Education Tracking System (S.E.T.S.). Providers will complete their SETS application once every four years, prior to their application for West Virginia EMR certification renewal.

1. Haz Mat awareness meeting OSHA 1910.120 or higher standards. (**3 hours awarded and required** annually.)
2. MCI or Disaster Management related training to include mass casualty drills totaling a minimum of **2 hours** biennially. (4 hours per WVOEMS Recertification)
3. Successfully complete an approved CPR training/refresher course meeting WV §64 CSR 48-6.7.a.4 at the professional/healthcare provider level. (**4 hours** awarded every 2 years)

EMR Recertification Policy and Procedures NREMT

- E. Skills Requirement** – providers must successfully complete all skills assessments outlined for the EMR level in the WVOEMS Education Approval Policy. The required skills may also be obtained by completing Module 3 of the WVOEMS approved EMR refresher course.
- F. On-Line Courses** – Distributive education will be accepted in accordance with National Registry and the WVOEMS policy.
- G. National Registry:** EMRs recertify utilizing National Registry in the following manner:
- a. Complete all requirements for recertification outlined by National Registry.
 - b. Proof of education shall be submitted to National Registry online platform.
 - c. Complete the appropriate State Education Tracking System (S.E.T.S.) application every four (4) years prior to renewal of your WVOEMS certification.
- H. Important Notice:** An EMR/EMT/AEMT/Paramedic certified by WVOEMS must be continually certified by the National Registry of Emergency Medical Technicians (NREMT) during the duration of your WVOEMS certification. Failure to retain uninterrupted National Certification will result in the immediate suspension of your WVOEMS certification and your right to practice in West Virginia.
- I. Lapse in Certification –**
- a. **Lapsed 0-30 Days:**
If the EMR met all recertification requirements prior to the expiration date but did not complete the administrative functions of recertification, the National EMS certification is considered to be lapsed. If the certification has lapsed less than 30 days, the applicant can submit a late fee per NREMT policy and submit all required documentation to regain certified status.

EMR Recertification Policy and Procedures NREMT

b. Lapsed 0-24 Months:

If the EMR did not meet all recertification requirements by the expiration date, the National EMS certification is considered to be lapsed. If the certification lapsed less than two years, or you are currently state licensed as an Emergency Medical Responder (EMR), you can regain National EMS Certification by completing the cognitive and psychomotor examinations.

To obtain authorization to test, lapsed EMRs must demonstrate proof of education requirements. The following methods are acceptable:

- Complete a Traditional State Approved EMR Refresher
- State approved continuing education equal to the EMR Refresher
- If the EMR was licensed in a NCCP state, completion of the National Component meets the requirement

c. Lapsed More Than 2 Years:

If your EMS certification expired more than two years ago, you must complete an entire state-approved Emergency Medical Responder (EMR) course, and complete the cognitive and psychomotor examinations.

In cases where a lapse in certification has occurred and there is no background check on file with WVOEMS, the applicant will be required to apply for and be cleared by the State and National background checks for WVOEMS as required in WV §16- 4C-8.1.1

This policy replaces all previous policies for Emergency Medical Responder Recertification.
