

Moms facing an abortion, change their mind and their heart after paying the deposit on an abortion.

They may feel as if putting that money down causes them to be obligated to the abortion with no way out.

Life's Connection helps remove that obstacle by reimbursing the money they paid to the clinic, informing them they have a right to say "NO" at any time, which frees them to choose life.

Generous donors make this program possible.

Please consider joining our team today and give women that change of heart.
