How Hunting Consultants Unlimited Free Service Can Assist You

HCU works with over 100 Outfitters, Ranchers, Bush Pilots and Guides. Unlike booking agents, who have contracted to fill up an outfitters openings, we are hunting consultants. To do our job properly, we often put you directly in touch with the outfitter or rancher before you decide on a specific hunt. This is to ensure that you understand what to expect on the hunt and to determine whether the hunt is right for you. Bottom line, you can contact the outfitter to discuss the hunt and make your own decision before sending us a deposit.

Our service is free to you because we charge the outfitters or ranchers a commission.

Some of the best outfitters do little or no self-promotion. Instead they rely on their reputations, word-of-mouth advertising and on Hunting Consultants Unlimited. Some ranchers and small outfitters take so few hunters per year that they cannot afford to advertise, print expensive brochures or attend sport shows.

Think of us as a free information service. You can benefit from our experience, knowledge and information network by reading our newsletters, calling us on the phone or consulting our constantly updated website, www.besthunts.net. We can put you in touch with the outfitter or rancher and when you are ready to book we expect you to send the deposit to Hunting Consultants Unlimited.

When you return from a successful hunt booked through HCU, please have your friends call us rather than the outfitter. This keeps our service free and quite often the right hunt for you may not be the right hunt for a friend.

SPORTSMEN'S FOUNDATION

Over the course of American history millions of combat veterans of the United States Armed Forces have fought to protect our country and our freedom. One of the tragic consequences to our combat veterans and their families has been the sometimes long lasting detrimental impact to their mental and physical well being. It is known that a show of appreciation for their sacrifice is oftentimes great therapy, and may go a long way toward recovery. The Sportsmen's Foundation for Military Families, an IRS 501(c)(3) charitable organization, helps provide that therapy. Should a combat veteran be struggling mentally or physically, we lend a hand. Coping skills improved, confidence regained, a better chance for success in life. The singular experience of the hunt and all that it represents to the veteran will greatly aid in long term quality of life, reduction of Post Traumatic Stress among those who suffer, and bring comfort to their mental well being.

Most hunters will tell you that hunting is much more than simply the harvesting of an animal. The act of hunting represents a call to nature, independence, bonding with friends, a quiet reflection, for many a passion like no other. Hunting may represent the single biggest stress reduction and "cleansing" of the soul for the individual who is dedicated and enthusiastic about outdoor activities. While the act of hunting on the surface may appear inconsequential, it is all that the hunt represents to the veteran-hunter that truly matters. The completion of the hunt represents accomplishment, ability, achievement, and success. These values will remain and aid the veteran long after the hunt is over. Ultimately the hunt, for the enthusiastic combat veteran-hunter, is anything but inconsequential. We have no high paid staff, we continually seek donated or reduced rate adventures from well-known and experienced outfitters, and we are extremely frugal, watching every penny. However, because we cater specifically to the entire family, never isolating the veteran from their family, our costs are high. Please consider a donation of whatever you can afford, \$10, \$100, or even \$1,000. Automatic monthly contributions, such as \$15 per month, are particularly helpful, as they provide for us a consistent budget. You may contribute at www.huntforvets.com. We welcome you to visit our ranch in Florida. Come see for yourself, firsthand, the work we do with veterans and their families. We are confident you will appreciate the benefits. We owe our veteran families more than we can ever repay, but we must try. Your online donation will help in their healing, help them in their recovery, help them get their family back together as it should be, with dreams and hopes of a brighter future. Please donate at www.huntforvets.com right now.

In order to participate in a Outdoor Adventure with The Sportsmen's Foundation for Military Families, you must have served in combat. We accept Combat Veterans from all war eras. All hunting and fishing trips are 100% paid for. Qualifying families just need to arrange their own transportation .

Thank you and God Bless,

Danny & Carla Santangelo
