

## ***All Things New Parental Permission for Participation by Minors***

ALL THINGS NEW: A DISCIPLESHIP MINISTRY FOR HEALING is a Ministry for people who experience same-sex attraction (SSA) facilitated by lay leaders and assisted by volunteer prayer/accountability partners. This ministry with its weekly group meetings does not constitute or include any form of professional counseling.

The purpose of the All Things New Ministry is to aid the spiritual healing and growth of people who have in the past, or are currently experiencing SSA. This ministry is designed to help release people from the bondage of SSA and to allow them to experience healing from the effects of their exposure to SSA. We create a safe environment for healing; train people to examine their lives in light of biblical truth; and cultivate personal intimacy with Jesus Christ that leads to true Discipleship.

Each participant in the discipleship ministry is paired with an Accountability Partner who serves as a mentor/Christian friend to pray for and support the participant as he/she works through the weekly lessons. The accountability partners are not counselors or therapists; they are people who have a heart for serving and supporting others who desire to live a holy life.

The facilitators and accountability partners agree to maintain the confidentiality of all participants in the ministry to provide a safe environment for people to discuss their feelings and struggles openly. All information shared in the group will be kept confidential with limited exceptions, for example, if we believe a participant is at risk for suicide, or if we believe someone intends to harm another person.

I have read and understand the above and grant permission for my son/daughter to participate in the All Things New Discipleship Ministry:
