LURALINE

LIGHTING

A fixture in lighting since 1967

Luraline Lighting is dedicated to delivering fixtures made with the highest level of quality and supported by an even higher level of customer service. We demonstrate this with the attention we put into every detail of manufacturing our fine products. We prove it in the way we personally attend to every customer need. Specifiers, architects, engineers and designers know they can count on us every day to do everything in our power to meet all of their lighting fixture needs. You can too.

Service you can count on

Most companies say they have outstanding customer service. Luraline Lighting really does. We don't just say it, we prove it with all that we do. You hear it in the friendly voice on the phone. You see it in the way each order is processed quickly and efficiently. You understand it every time you receive your shipment, just the way you ordered it.

Every fixture is built to last

Our team of highly-skilled craftsmen are all focused on making the best fixtures possible. Combining precise construction, energy-efficient technology, and durable materials, we build our fixtures to last. When you hold a Luraline Lighting fixture in your hands you can tell it's built to withstand the test of time.

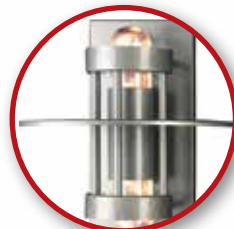

Putting more energy into using less

The demand has never been greater for improved lighting in public spaces. Along with that is the requirement for those lights to use less energy. Luraline Lighting has focused on producing energy-efficient, high-performance fixtures for more than 4 decades, long before anyone had to mandate it.

Fixtures Made Your Way.

Timeless designs to suit any specification

Luraline Lighting is recognized for offering a tremendous selection of specification-grade fixtures. These products are designed to increase the lighting performance as well as enhance the style in many different applications. Our fixtures are often seen in offices, schools, hospitals, restaurants and more.

Decorative styles to please any designer

If you want your lighting to make a statement, you've come to the right place. Our decorative fixtures have the style architects, lighting designers and decorators appreciate. From the distinct styles to the unique colors and finishes, these fixtures will satisfy almost any design specification. Luraline Lighting offers the specifier a multitude of options for fixture styles, lamp types, wattages, efficacy and longevity.

It's not custom, it's VersaStyle™

Luraline Lighting understands the challenges to fill precise specifications while meeting stringent budgets. These challenges have driven us to create VersaStyle. With VersaStyle you can adapt existing Luraline fixture designs to meet your exact specification needs. VersaStyle provides the ability to change integrated components, as well as standard dimensions, wiring and finishes. With VersaStyle you can create uniquely different fixture styles at a fraction of the cost of custom.

VersaStyle

It's easy to have lighting your way

It's never been easier to get lighting just the way you want it. Our fixture line-up is filled with the best-selling decorator styles and time-tested design classics. Each one is easy to find and simple to order. We have lighting fixtures to suit any specification and any budget. Lighting your way.

Lighting Your Way

The Luraline family of fixtures are designed to suit a range of applications and built to withstand the test of time. You can meet all your specification needs with Luraline Lighting, from specification-specific to value-engineered. We have fixtures to suit most applications and budgets.

Area/Site

Durable exterior fixtures offering illumination of parking lots, roadways and bridges. They also provide large-scale general area lighting for sports and recreational facilities.

Bollard/Landscape

Purposeful exterior fixtures provide illumination and brightness control for walkways, gardens and other landscape oriented uses.

Bulkhead

Versatile, durable and efficient nautical styled interior and exterior fixtures for docks, patios, building entrances and more.

Canopy

Surface-mounted exterior fixtures that deliver enhanced safety, security and glare reduction in commercial parking structures, entranceways and overhangs.

Cutoff/Downlight

Interior and exterior light distribution control fixtures that save energy and minimize light pollution. No vertical direct uplight and/or limited horizontal light patterns enhance your dark-sky friendly efforts.

Cylinder

Interior and exterior cylindrical fixtures in simple round and square shapes, providing maximum architectural impact. They are available in flush, suspended and wall mount for optimum design functionality.

Decorative

Classic and contemporary interior and exterior fixtures that include pendants, bowls, schoolhouse, sconces and more. These are ideal for a variety of design-oriented purposes.

Floodlight

Functional exterior fixtures that provide saturation of light over large areas. For use in stadiums, warehouses, parking lots and many other commercial and industrial structures.

RLM

Standard and designer shades bring color, style and flair to many different interior and exterior applications. They are ideal for shopping, lodging and dining establishments.

Vapor Style

Industrial-styled interior and exterior fixtures that offer vapor-tight appearance to satisfy distinct creative design requirements.

Wall Pack

Wall-mounted exterior fixtures in full-cutoff, semi-cutoff and non-cutoff designs. They are perfect for security lighting as well as entrances and walkways.

Wall Wash

Directional interior and exterior fixtures that enable lighting of signs, building facades and interior space accents.
