

OBJECTIVES & RECOMMENDATIONS

1. Preserve the Little Havana neighborhood, and the reuse of its historic buildings

2. Ensure that new construction is contextual and compatible with the neighborhood

3. Density without Demolition

4. Re-inforce Community through the Introduction/revitalization of Civic Places

5. Protect and Enhance Sense of Place of Calle 8

6. Resiliency Plan

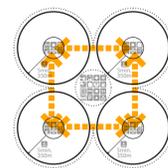

1. Create more trolley routes and improve trolley service

2. Improve transit connections to major employment centers - Downtown and the Airport

3. Provide convenient and safe multi-modal connections between neighborhood centers

4. Support and improve safe and convenient pedestrian and bicycle movement through the neighborhood

5. Calm speeding traffic

1. Improve access to existing parks

2. Improve access to the Miami River through expansion of the Miami River Greenway system and creation of additional riverfront open space.

3. Create more shade

4. Create more parks and open space

5. Incorporate native plant landscaping and edible throughout Little Havana to improve community health and the health of the environment.

6. Incorporate outdoor open spaces into the design and redesign of workplaces, schools, and residences in order to improve public health.

1. Ensure that housing and businesses are affordable and accessible for the community.

2. Maintain existing buildings as decent places to live

3. Create an approach for compassionate code compliance

4. Keep streets clean by reducing litter and maintaining infrastructure / landscape

5. Support multicultural and multigenerational living spaces

6. Keep the younger generation in Little Havana as they grow

7. Provide better lighting in alleys, bus stops, public spaces, and parks

8. Reduce crime for safety at home and in the streets
