## We always have water stuff to talk about

### **POOL is open! Pool is open! Pool is open!**

A broken pump has been removed and a new one installed by our pool contractor. All should be ready for Pool opening!

**Ponds:** Thanks again to resident George Christodel for finding a contractor who could repair our pump problems. Our ponds now have water coming in and the fountains have been reinstalled (after cleaning!). Yes, we have "lakes" again!

**Landscaping:** Bet you have noticed the landscaping and trimming done by Simply Green—looking GREAT! Simply Green will also be putting in new flowers and pine straw. Plans are in the works to replace old, dead or damaged plants in front of Buildings B, C, D, & E. Of course, the irrigation system will be turned back on as the temperatures climb.

Carl Calo has resigned from the CL HOA Board. Would you like to fill the remainder of that term? Send your name and contact information ASAP to:

## **FYI**

Cambridge Lakes HOA has received a letter requesting an easement to tie into our drainage system.
