

Core Competencies

Public Utilities

- ▶ Water
- ▶ Wastewater
- ▶ Electric
- ▶ Natural Gas

Transportation & Public Works

- ▶ Roadways & Intersections
- ▶ Signalization / I.T.S.
- ▶ Traffic Studies
- ▶ Pedestrian Facilities
- ▶ Street Lighting
- ▶ Traffic Specialties
- ▶ Municipal Services

Site Development

- ▶ Low Impact & Sustainable Design
- ▶ Residential
- ▶ Commercial
- ▶ Industrial
- ▶ Churches & Schools
- ▶ Municipal & Government
- ▶ Pedestrian Facilities

Field Survey

- ▶ Boundary Surveys
- ▶ Topographic Surveys
- ▶ Route Surveys
- ▶ ALTA
- ▶ Construction Layout

Stormwater & Environmental

- ▶ Detention & Drainage
- ▶ Erosion Prevention & Sediment Control
- ▶ Flood Studies/ HEC-RAS Modeling
- ▶ Permits

Construction & Phase Services

- ▶ Construction Engineering & Inspection
- ▶ Construction Administration
- ▶ Erosion Prevention & Sediment Control

Cannon & Cannon, Inc. is a consulting engineering and field surveying company, with a talented team of imaginative thinkers who specializes in transportation & public works, public utilities, electrical engineering, water, wastewater & gas, site development, stormwater & environmental, and a full range of field surveying services.

Our certified personnel provide construction phase services to support all facets of our engineering groups. We provide consulting engineering & field surveying services to various public, private and industrial clients, and we have offices in Knoxville & Memphis, Tennessee, and Bowling Green, Kentucky.

Differentiators

- ▶ We have experience working with local, state, and federal agencies allowing us a unique perspective for keeping your project on track.
- ▶ Our team is actively involved in new technology including smart stormwater solutions and Intelligent Traffic Systems (I.T.S.).
- ▶ We provide quality services that reflect our practical approach, our focus on relationships, and our creativity and intentionality.
- ▶ CCI products & services interact with people every day, providing residents with clean water, safe roads, and heat & electricity.
- ▶ We are known for taking difficult design projects and coming up with creative solutions, and thinking 'outside the box'.
