blin seconded. MOTION CARRIED.

Dale reported he had talked with Bedke last week **ENGINEERING**
that the computer runs from the Division of Water Resources **STUDY**
were "guesstimates" and Doug would like to get the flows
measured so he would have an accurate picture of what the
system is producing. Dale is checking to see how much this
will cost; his estimate was $800.00 for two days for the
meter and a man from Community Consultants, plus four taps
on the line which would cost an additional $200.00. After a
discussion, Dutch moved the District go ahead with the
study. Bill McDougald seconded. MOTION CARRIED.

Dale reported the annexation proceedings were in **ANNEXATION OF**
progress, and that the petitions had gone out last week. **SAN JUAN COUNTY**
The cutoff date for the petitions is August 1, 1986, and **USERS**
Brent Rose is in the process of making up the form for the
public notices.

Jim Walker asked about the District looking into **SUPPLEMENTAL**
obtaining other wells. George asked about the demand for **WELL AGREEMENTS**
water and Dale replied the District could not sell more **TO SUPPLY M.I.C**
water than the creek flows in the later season. Gary **IN DROUGHT**
suggested we pump the Betty Schumaker #2 well when the creek
flow drops, so that we know exactly what that well will
produce. Various wells were discussed, together with water
rights on Mill Creek.
