The Path to Destiny

From Darkness to Destiny

Think Big Book Summaries

“Make sure you invest your life in something that matters to you and matters for eternity.”

‘Out of Darkness Cometh Light’ sets the scene for the ‘Road to Personal Destiny’ by entertaining, educating and inspiring the readers to study themselves and the world around them a lot closer, and understand consciousness and the seeds of true happiness.

‘Your Real Destiny’ takes the analysis deeper and more personal to the individual, going beyond Personality Analysis with Character and Values-based Profiling and introducing the concept of Self-Discovery by Self-Awareness of Personality Traits, Value-drivers, Skills Set and Desires culminating in a Personal Blueprint of Destiny Options based purely on Self-Assessment and Profiling Criteria.

‘Destiny of an Author’ is an autobiography but serves to provide a Real-Life Case Study of the application of the sister books’ philosophies and processes to the generation of a New Life Blueprint for the individual.

‘Sex and Your Destiny’ is a frank assessment of the importance and influence of the subject matter on all of our lives and how it impinges on setting overall Life Destiny Options.

The Website www.Destiny-Gram.com (and its published Handbook **‘The Road to Your Destiny’**) are sequels with

‘Your Impossible Mission Accomplished’ being the Fifth Book on *Destiny* written this time by the previous Books’ Editor (Sister Whittington), and complemented by the new leading AI driven Website, www.Destiny-Gram.com, which together do the analysis and send the profound message about ‘Thinking Big’ in terms of Personal Destiny – helping Readers and Users of the Destiny Website find their paths to a chosen destiny with amazing new insight revealing the Secrets, the Keys, the Goal Selection, and the Methods.

*“Your Reason for Being Is Your ‘Life Purpose’ and Your Chosen Destiny
Will be ‘What You Do’ With the Rest of Your Life to Achieve It.”*

Note from The Author

Personal Content in Draft Books

These Books started as a 'Work of Personal Reflection and Passion' written during the Covid-19 Pandemic. The Scripts are Work-in-Progress 'First Drafts' and contain a substantial quantity of 'Personal Information' and references to individuals and situations, some of which will not be included in Final Edited Versions. The Contents, Subjects and Themes of the Draft Books are therefore intentionally meant to be - Generic, Personal to the Writer, and Personal to the Reader.

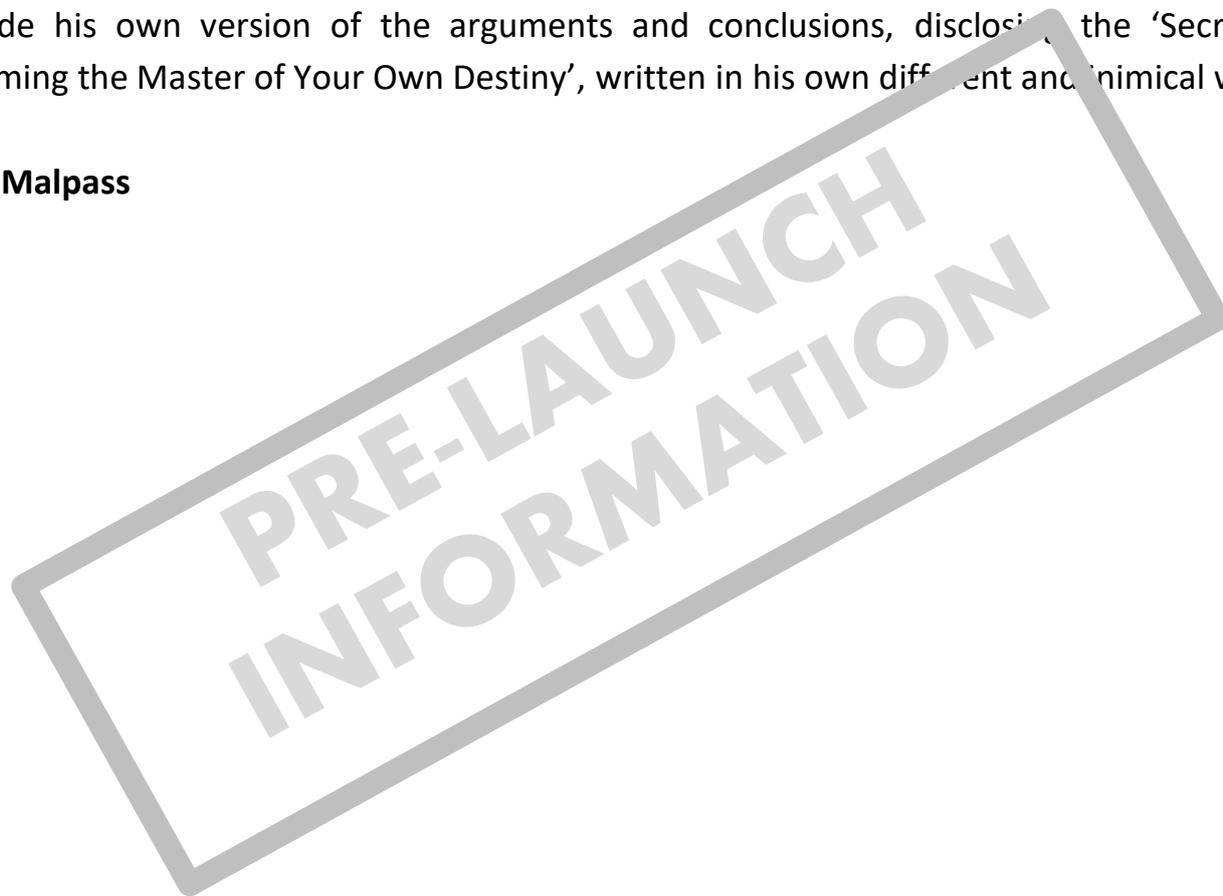

Direct or anecdotal references to individuals, names, characters, businesses, places, events, and incidents, while based on the perceived knowledge and experience the Author, may include, or be based purely on Personal Opinion. Most personal stories are written as intriguing life messages, related in amusing anecdotes intended to entertain, provoke, educate, and inspire others and insight and development. Content, being the opinion of the Author and others when named, is intended to be relevant to the messages, and not intended to offend any persons cited, nor prove irrelevant to the reader. The Author accepts that his own opinions are purely based on his experience and his interpretations thereof and may not be a truthful account of actual events or circumstances. Final Edited Texts will exclude any non-relevant or sensitive information, but some such information has been included in the un-edited versions to give Editors a complete sense of the circumstances and lessons being relayed or learned.

Mindful of the above, the Draft Books are 'Copyright and are Not yet in The Public Domain'. As Un-Edited, Pre-Published Versions they are for Private Use Only by Selected Individuals & their Organisations. No Part or Parts Should Be Copied, Published, Or Shared with Any Third Parties Without Permission in Writing from The Author.

'Out of Darkness Cometh Light' contains substantial personal content, mostly in anecdotal form, intended to inspire the readers to follow suit in self-study of themselves and the world around them, and understand consciousness and the seeds of true happiness. *'Your Real Destiny'* takes the analysis deeper and more personal to the individual, not the writer, in the concepts of Self-Discovery and Self-Awareness. *'Destiny of an Author'* is an autobiography, less relevant to the common theme of the study of 'Personal Destiny' but serves to provide a Real-Life Case Study. A lot of the content will be edited before publishing. *'Sex and Your Destiny'* is a frank account and assessment of the importance and influence of the subject matter on all of our lives, and how it impinges on setting overall Life Destiny Options.

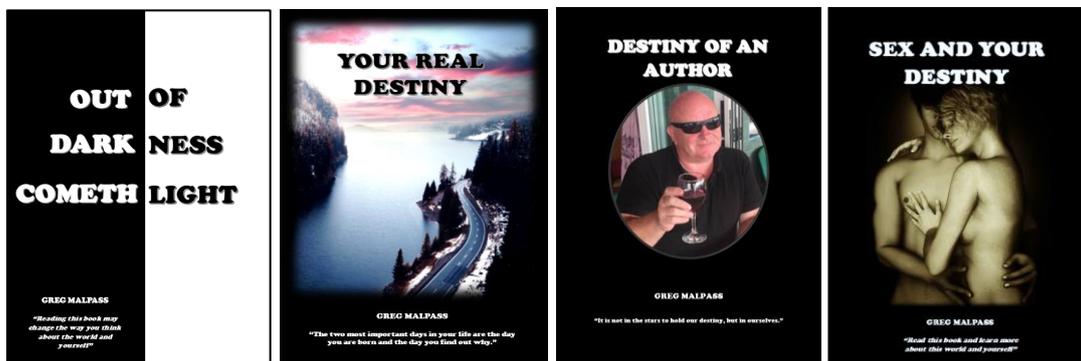

Rustler Whittington, the initial Editor of the early drafts of the Books, is himself Author of the last Book *'Your Impossible Mission Accomplished'*. His mission was to take the baton and provide his own version of the arguments and conclusions, disclosing the 'Secrets to becoming the Master of Your Own Destiny', written in his own different and whimsical way.

Think Big Book Reviews

"It is not in the stars to hold our Destiny, but in ourselves."

Written by an unknown and uncelebrated author keen to share his experiences and insight and, in wearing his heart on his sleeve, inspire others to do the same in the search of their real destiny.

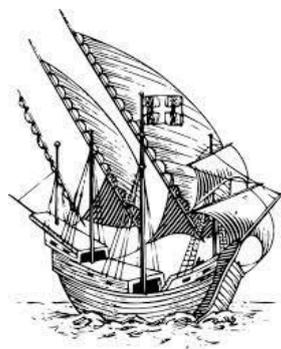

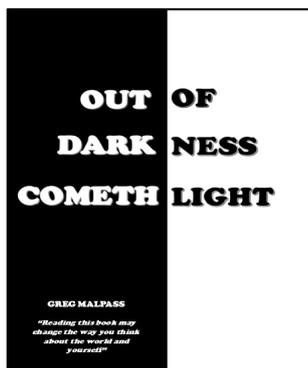

'Out of Darkness Cometh Light' is an autobiographical book of philosophy and inspiration which maps a route to Self-Awareness, analyses everything from the problems of Global Power, Politics and Addictions to the study of Individual Personality, Values and Destiny. The conclusion promotes societal changes in the world, but more importantly provides a Life Blueprint for Personal Destiny and Happiness.

'Your Real Destiny' is a focused, step-by-step Self-Discovery Manual for the individual providing a stage-by-stage program of analytical tools to assess Personality Traits, Character based Values, Skills Set/Needs and Desires, and culminates with a Personal Blueprint for finding their Destiny.

'Destiny of an Author' is an autobiographical account of the Author's Personal and Professional Life Journey and reality. It provides a Real-Life Case Study of the application of the sister books' philosophies and processes in the generation of a New Life Blueprint for the individual.

'Sex and Your Destiny' is a frank and eye-opening assessment of the importance and influence of the subject matter on all of our lives, and how it impinges on our Destiny.

From Darkness to Destiny

"**Out of Darkness Cometh Light**" is the 'Flagship' Title Book of the hexalogy of Publications on Destiny written by Greg Malpass and Rustler Whittington. As the title suggests something positive can come out of any difficult or challenging situation - used metaphorically to imply that by enduring tough times, we can gain a deeper understanding of ourselves and the world around us.

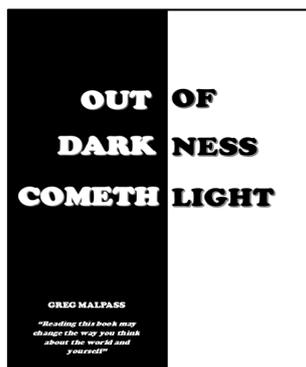

In the context of the "**Road to Your Personal Destiny**" a Destination is implied as well as a Journey of Destiny – in that by facing the challenges of life, we can find a way to achieve our true potential and attain genuine happiness. The road to personal destiny is not an easy one, but it is a journey that can be filled with purpose, meaning, and fulfilment.

The Book's concept also suggests that the journey towards personal destiny is not just about external accomplishments, but also about inner growth and self-discovery. The journey requires us to study ourselves and the world around us more closely, understand the nature of consciousness, and cultivate the seeds of true happiness within ourselves.

Through the process of studying ourselves and the world around us, we can gain a deeper understanding of our strengths, weaknesses, passions, and purpose. We can learn how to overcome obstacles, develop resilience, and cultivate a positive mindset that allows us to thrive in any situation.

In conclusion, "Out of Darkness Cometh Light" is a powerful Title Book that sets the scene for the "Road to Personal Destiny", with its sequel books, by reminding us that even in the darkest of times, there is always a way to find the light. It encourages us to embrace our challenges and use them as opportunities for growth, learning, and transformation.

Love and sex - are among the most meaningful and emotionally significant phenomena in our lives. For many of us, our longing for genuine love and satisfying sex overshadow our desires for education, a career, wealth generation, or arguably the search for real destiny in our lives. Yet love and sex - and our beliefs about both - seem to cause us at least as much suffering as joy, and at least as much regret as satisfaction.

Though private lives remain private, popular cultural, media and social networking references to 'love and sex' abound. Few of us spend time to consider what enduring effect our views and the decisions we make around love and sex have on our lives. In reality it's our personalities which play the leading role in what we think and do and analysis of personality traits and commonly held views and myths on love and sex can yield valuable insight.
