Continue Fresh Start...

STREAKIN FAST FLASH worked better than he ever has at the Fresh Start Futurity. I knew going into the first round that 'Eddy' was feeling extremely well and that he was going to fire. All I needed to do was stay out of his way and let him do his job; he worked extremely well and won the first go. Going into the second round my game plan was to stay consistent and make the same run as the day before. The second round went even better, improving by 3 tenths and winning the second go and clocking that fastest time of the weekend. At the end of the weekend we had won both goes of the futurity and the average, winning \$1988.00.

Lucky Penny Productions has always gone above and beyond to make sure that the runners have the best ground as possible. I felt that the ground was very consistent and fast all weekend long. I would highly recommend any barrel race that is produced by Penny.

Streakin Fast Flash was raised on our place, owned by my parents Rick and Lisa Bruley and is sired by A Steak Of Fling. Eddy was the kind of horse that took a little work to get to run the barrels. But once he got the gist of it he was very easy to train and ride. The most important thing with Eddy is to try and stay relaxed because he is a very playful horse and sometimes it can be a little hard to put up with it. Because Eddy has had limited hauling, I still make sure that I get at least two exhibitions on him before I run so that he is able to see the inside of the area. Alysia Moe started him on the barrels. When I got him, he was working a very correct pattern at a lope and then I trained him from that point on.

Eddy was raised at my parents place in Willow Lake, South Dakota. Eddy's mom, Fancy Fanny Flasher, was never competed on herself but there were several horses of the same blood line that had proven themselves. Our family had owned several horses closely related to Fancy Fanny Flasher with a high rate of success in both the roping events and the barrel pen.

Streakin Fast Flash was a colt that didn't really think that he needed a job. But after two months of ranching with Colton Musick he was much more mature and ready to work. After being on the ranch with Colton we sent him to Alysia Moe to be started on the barrels. Alysia did an absolutely amazing job with him and Eddy hasn't stopped improving yet. He has been a very fun horse to ride and I can't wait to see what he is going to accomplish.

I ride Eddy in a short shank gag with a chain mouthpiece; it's what he has always liked the most and works the best in. We have a chiropractor work on Eddy when we feel that he might be getting sore. We also have started to put a lot of time into stretching our horses regularly and have seen a great improvement in the way that they run.

The plan is to continue to haul to the futurities on the NRF Tour, and some of the local open races. We aren't going to run the legs off of him. We just want to keep him sound and make his career as long as it possibly can be.

GIVING THANKS...

I would like to thank my parents for everything that they do for me. And I would also like to thank all of my family and friends that are always there cheering for me during my runs.

TRAINING TIP...

I wouldn't say that I am a trainer but everything that I have learned about barrel racing has come from watching the people that are better than me and asking them questions. When you go to a barrel race spend your free time watching everyone else's runs. There is a lot you can learn from observing different styles and techniques in the barrel horse industry.
