

# OMNI HOTELS & RESORTS<sup>®</sup>

April 2012

**Green Team Initiatives and  
Accomplishments**

**-551 Guest Rooms**

**-16 Conference Rooms  
(19,051 total sq feet)**

**3 GREEN KEYS in 2009!**

The Omni Parker House is committed to minimizing our impact on the Earth's atmosphere and increasing our energy efficiency. As a member of Boston Green Tourism and the Green Hotels Association, our hotel has been recognized as a "green" hospitality leader. We are proud to have earned a Green Eco-Leaf rating in 2009 and are in compliance with all eleven American Hotel & Lodging Association Green Guidelines.

## Current Energy Saving Programs:

**Lighting:** Compact fluorescent lights with motion sensor switches in non-public areas. Also, LED Light bulbs put throughout the hotel: lobby, restaurants, front office, etc.

**HVAC Controls:** Building Automation System monitors and controls the HVAC system for all function space. Occupancy sensors have been installed in all guest rooms

**Ozone System:** An ozone-based product line is used during cold water laundry cycles conserving a significant amount of natural gas and hot water

- Recycling/Composting
- Polystyrene-free Environment
- Linen Re-Use Program
- Reducing Paper Use
- Façade Restoration/Window Installation
- Quarterly Green Team Meetings

- Decreases in the consumption of Electricity, Water, Gas, and Steam since 2008
- Continuing the installation of LED Light bulbs in all of the meeting rooms
- Continuing to implement Green Initiatives and training employees on living more of a Green lifestyle
