THE
GEORGIA
DRONE
aerial photography & videography

CAPABILITY STATEMENT

CORE COMPETENCIES

The Georgia Drone specializes in providing stunning, cinematic, full-motion aerial video & photos from the skies of Georgia and the Southeast. We focus on construction, inspection and thermal imaging projects. Along with providing a unique perspective from the air, using drones also provides cost-effective, low liability risk alternatives to traditional methods for inspections and other industry tasks. Drones can increase efficiency, increase safety, and can reduce manpower, costs and time.

CORE SERVICES:

Commercial Real Estate | Inspections | Aerial Thermal Imaging | Construction Job Site Progression & Timelapses | Pre-Construction Vibration Monitoring & Surveying
Ground Videography & Photography | Post-production / Video Editing

KEY DIFFERENTIATORS

- Production and post-production services provided by us and not outsourced.
- We use the latest drone technology on the market to assist us in meeting job requirements.
- PART 107 CERTIFIED PILOTS that specialize in photography and videography. This allows us to provide a complete ground-to-air solution along with our post-production services.
