

# Growing for the greater good.

Learning about giving, loving and sharing starts with humans and nature. Treating our bodies and land with respect will result in pride, health and balance. ANUME grows, feeds and inspires. We educate, we give and we bring our community together.

Our mission is to feed people in need healthy organic vegetables grown from our fortified soil with inputs from mother earth. To help us with this endeavor, please consider a donation to the ANUME Foundation, a non-profit organization located in La Grange, TX.
