

Way to Yahweh, the Light of Truth, and the Life of never-ending Bliss.

The reason I write this Letter to you is to fulfill my committed duty to pass on to every creature a clear summary of what Jesus did and taught.

What I write in this Letter is intended to aid you in acquiring a personal relationship with Jesus. What a joy to discover that He leads each soul to directly share His relationship with His Father. There is no joy greater than to meet one's Creator face-to-face; the rejoicing over that will take an eternity.

I know that future generations will lament that they were not able to gaze on Jesus with their bodily eyes as we did. Still, by seeing Him through the eyes of faith, you will be no less free to act productively on your hearing of His Word. Through the movement of God's own Spirit, you will come to experience much of what we founding disciples saw and heard during our walk with the Christ. Each of you can directly encounter Jesus in His Person, for He lives!

For humans to convert from their ungodly way of life to a God-directed one is a most difficult if not impossible task. Truly, this cannot be done without the miracle of grace, and that is precisely why Jesus is so necessary to the process. He effects the impossible by working a personal miracle of soul-healing on every sinner He redeems. He initiates the process by inspiring men to repent, and then sends to everyone of good will the converting gift of His own Spirit.

So, open your hearts to believe the "Good News" in good faith, and the Spirit will enable you to recognize that Jesus is the Messiah Son of God. By God's
