# Sugar Blossom:

You'll never want to wax again.

Written By Melissa Sundardas

**W**ith a little help from a sweet solution, you'll be able to confidently show off your sexy, smooth, hair-free skin.

Sugar Blossom – a one-of-a-kind natural hair removal salon located in Vaughan – offers the chance to experience a technique called professional body sugaring – a process they've not only mastered, but specialize in as well.

An alternative to waxing, which is made from artificial dyes, chemicals and preservatives, sugaring is an all-natural, safe and effective way to get rid of unwanted and unattractive hair anywhere on your body.

As you take a seat in Sugar Blossom's inviting salon ready for this effective, intriguing procedure, a lukewarm mixture of sugar, lemon and water is gently

massaged and moulded onto your skin, then quickly, but gently, flicked off. This ensures all of your unwanted hair is taken right out from its roots by removing it in the same direction as your hair growth, not the opposite as waxing does.

The process of sugaring eliminates the likeliness of injury, damage or bruising to your skin, which is a common result of strips being ripped off your skin through waxing. This makes it a perfect choice for hair removal in your most sensitive areas like the bikini area, Brazilian, underarms and face.

Only 2 to 3 millimetres of hair growth is required for this procedure, so there's no embarrassing period spent waiting for an acceptable amount of hair regrowth.

No matter your hair texture, skin type, age or gender, an appointment to Sugar Blossom will leave you hair-free and silky-skinned for weeks. ©
