

Please read through these guidelines carefully. We will make efforts each week to reduce risks regarding COVID-19, but we are not able to eliminate all risk. If your family is concerned about the risk of exposure with COVID-19, we encourage you to participate in Awana at your home. Please talk with your department leader or club director, if you do not plan to attend Awana live at MVEFC.

1. Drop Off & Pick Up: For Cubbies, Sparks and T&T, parents are to drop off and pick up at designated locations in the building.
2. Hand Sanitizer and Hand Washing will be available throughout the night. Children will be asked to clean in between activities. Please notify your department leader if your child has an allergy or sensitivity to hand gel and needs to hand wash.
3. Please keep your all children home if any one member of your family is experiencing the following (which is a new onset and not related to a current condition-i.e. allergies, etc): fever, chills, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, cough or runny nose, nausea or vomiting, or diarrhea.
4. Masking will be required based on the current State of Colorado Executive Order D 2020 138. As orders change, MVEFC Awana will adjust based on the changes. If your child cannot wear a mask for medical reasons, please notify your department leader or club director. This order does not require children 10 and under to wear a mask, but these children are still welcomed and encouraged to mask at Awana. A summary of the order guidelines is below:

Fast facts

The order requires people in Colorado who are 11 years and older to wear a covering over their noses and mouths:

- When entering or moving within any public indoor space.
- While using or waiting to use public (buses, light-rail) or non-personal (taxis, car services, ride-shares) transportation services.

People who do not have to wear a mask include:

- People who are 10 years old and younger.
- People who cannot medically tolerate a face covering.
- Children ages 2 and under should NOT wear masks or cloth face coverings.

Research shows that people who have no symptoms can spread COVID-19. Wearing a non-medical face mask helps minimize the spread of the virus. Instructions for making homemade masks can be found at the [Colorado Mask Project](#).

5. If Greeley District 6 stops/delays live classes based on COVID-19 **but** there is **not** a mandate from local, state or federal governments to stop live meetings, MVEFC Awana plans, at this time, to continue meeting live. If there is reasoning to no longer have a live meeting during this year, MVEFC Awana will notify families of the change via email, Facebook and website updates.
