

## Every Time I See You

Every time I see you, see you  
You're down and out.  
Every time I see you, see you  
You're filled with doubt.  
And, every time,  
You say you're going to change.  
And every time I see you  
You're still the same.  
Every time I see you.  
Every time I see you, see you.

Every time I see you, see you  
Down in doubt.  
Every time I see you, see you  
You're stoned out.  
And, every time,  
You say you're going to change.  
And every time,  
You're still the same.  
Every time I see you.  
Every time I see you, see you.

Now, dreams can come true.  
It could happen to you.  
But, likely as not,  
It won't.

Every time I see you, see you  
You're down in doubt.  
Every time I see you, see you  
You're stoned out.  
And, every time,  
You tell me that  
Tomorrow's going to be different.  
Every time I see you.  
Every time I see you, see you.

Now, dreams can come true.  
It could happen to you.  
But, likely as not,  
It won't.

Every time I see you.  
Every time I see you.
