

After consulting with staff and parents, Starlet Dance Studio has decided to close as long as APS is closed. We trust in our Lord to take care of us and He already is through the wisdom of our elected leaders. Because our leaders have taken precautions we are a state and country that is safer than many others. If we have a freezing wind and snowstorm, we will close our front door to keep the cold out of our house but if we do not also close the back door it will do no good. So we have decided to not be the open back door. Plan on being called on to attend extra dance classes once we are back in session so we will be ready for our recital. Be careful, wash your hands and stay safe.
