UPDATE

Dear Parents,

We hope all of our families are doing well. We truly appreciate the efforts put forth by our faculty and administration, as well as our parents and students, to get through this unprecedented situation. It is our goal to continue educating our students and provide them with the most effective instruction possible while we are unable to hold our regular classes at school. Our teachers have been communicating via telephone, email, and online to students and parents regarding the completion of assignments, answering questions, and providing explanations of lessons. Teachers are available for communication between the hours of 8 AM and 3 PM on Monday through Friday of each week that we are not able to be on campus. Updated information may be obtained from your child's teacher, our school web site, and our Parents' Club Facebook page.

As previously stated, the health and safety of our students and their families is a priority. Although we do not know at this time when school will reopen, we will continue to post weekly assignments to keep up with our curriculum for the rest of this school year.

Thank you to everyone for your support and assistance during this unusual time. We will get through this commendably and continue educating our students effectively and successfully. May everyone be healthy and safe.
