About the speaker:

Robert Brzezinski MBA, CHPS, CISA, CISM, Certified Microsoft 365 Security Administrator, Certified Azure Security Engineer.

Robert focuses on cloud productivity and cybersecurity technologies. As a certified Microsoft 365 Security Administrator and Azure Security Engineer, he specializes in Microsoft Cloud technologies like Microsoft 365 and Azure security tools. He helps customers understand, and take full advantage of Microsoft security architecture, to effectively protect their organizations and users; to streamline and automate IT operations; to improve and de-duplicate security and auditing efforts, and to put better cybersecurity and IT strategy in place. Robert also provides subject matter expertise for information privacy and security, and regulatory compliance (e.g. HIPAA) for small and medium size organizations. In addition to comprehensive risk assessments, Robert creates and implements risk management plans, and IT/security strategies to manage organization's risk exposure more effectively.
