

## Bonnie Ellison

I have written a children's book for ages 8-11 called:  
***Searching for the Greater Roadrunner -  
Adventures in Nature,***  
with the hope of nurturing and inspiring a love of  
nature in young ones, myself having been so inspired  
throughout my life.

I have sent the manuscript and illustrations to a few  
publishers but whether it is published traditionally, by  
self, on Kindle or only a few copies made for family is  
yet to be seen.

*Always so glad that I spent those two times at Dorland.*

*With fond memories and appreciation,  
Bonnie Ellison*
