

ROYAL DECREES OF THE SOLOMONS

PROPHETIC PATTERNS OF THE EDICT TO REBUILD JERUSALEM

The purpose of this study is to present an archetype of the 'Decree to Rebuild Jerusalem' that could be a prophetic template for the coming advent of the AntiChrist and debut of the 3rd Temple to subsequently be decreed to be rebuilt. The supposition is derived from the portion of Scripture that is given in the book of Daniel. In that case, there are some astonishing segments of prophecy that come to pass and some yet to be fulfilled. In particular, the Scriptures state that the Prophet Daniel received the revelation and understanding of when the *Exiles* of Judah were to return and in what condition the Walls of Jerusalem were to be rebuilt. The prophecies of Daniel declared that the *Captivity* in Babylon and eclipsing to the period also of the Medo-Persian empires would last 70 years. The context of building the Walls of the Temple thereafter would be characterized by a time of trouble where intense opposition to it would be present, even unto the *Last Days*. Also in Hosea, YHVH foretold a time that would coincide with this timeframe that Israel would not have a King. With this prophetic timeline and template, this study seeks to present the assertion that another historical 'Solomon' figure 'Decreed' such a rebuilding of the Walls of Jerusalem, that being Suleiman the Magnificent.

Suleiman the Magnificent

In the case of this 'Solomon' antitheses, it is not the true Christ that is to come but the AntiChrist that both the Muslims and the Jews are waiting for.

ROYAL DECREE

Artaxerxes I, Longimanus
(assuming calendar discrepancies)
if in 445 BC (no year 0) = 444 years
= 69 years of 360 Biblical years
= 69 x 7 weeks = 483 years
x 360 year = 173,880 days
= April 9, -32 AD

The following is the mathematical calculation of the Angel no less, given to Daniel of when, to the day, the Messiah would come riding through the *Golden Gate* of Jerusalem.

Daniel's 70 Weeks of Years = 490 years
The 69th Week = 490 - 7 years = **483**

The 483 year period described in Daniel 9:25 as 'Prophetic Years' of 360 days each.
483 years x 360 Prophetic Years = **173,880 days**

173,880 days / 365.25 days = **476 Solar Years**

$$1517 + 483 = 2020$$

What this study however, would like to correlate as mentioned was his amazing 'Decree to rebuild Jerusalem'. This is understood to have inferred to the Walls as no Muslim would 'decree to build the fallen House of YHVH, the 'Tents of David', etc. This *Royal Decree* came in 1517, exactly 500 years from 2017. In the Jewish reckoning of time, the year 1517 was 5278.

THE COMING SIGN OF MESSIAH

(Messiah Ben Joseph)
משיח בן יוסף

'Rejoice greatly, O Daughter of Zion! Shout in triumph, O Daughter of Jerusalem! Behold, your King is coming to you; He is just and endowed with salvation, Humble, and mounted on a donkey, Even on a colt, the foal of a donkey.'

Suleiman the 'Insignificant' in this case conceded and ordered the Gate plugged and Muslim cemetery placed in front of the entrance. The rationale was and is that the Messiah, being 'The High Priest' cannot enter a cemetery and touch dead bones or that of even walking over a grave, otherwise one would become defiled ceremonially and disqualified from entering and performing the Priestly and Messiah duties, etc. In the same light, it was and is understood by the Muslims that it is Elijah that is foretold to be the forerunner of the coming Messiah, thus to the Muslims, Elijah was of the Priesthood descent and could not also forewarn the Jews and the world of the coming Messiah if he went through a Muslim cemetery.

TEMPLE?

What the timeline suggests, possibly is that in the year 2020 is when 'something' perhaps in Jerusalem is to be rebuilt, a 'Covenant'? What? The context is clearly the 'Walls of Jerusalem', however the purpose for such a construction was to make way eventually for the rebuilding of the House of YHVH, the Temple.
