"And there appeared a Great Wonder in heaven; a Woman clothed with the Sun, and the Moon under her feet, and upon her Head a Crown of 12 stars: she being with Child cried, travailing in birth, and pained to be delivered. There appeared another Wonder in heaven; and behold a Great Red Dragon, having 7 Heads and 10 horns, and 7 crowns upon his heads. Its tail swept .33 of the stars out of the sky and flung them to the Earth. The Dragon stood in front of the Woman who was about to give birth, so that it might devour her Child the moment He was born. She gave birth to a Son, a Male Child, who "will rule all the Nations with an iron scepter." And her Child was snatched (Raptured) up to God and to His Throne." -Revelation 12:1-5

The purpose of this study is to consider this possible scenario given the prophetic patterns of the imagery throughout past fulfillments and the possible pending Virgo Revelation 12 cosmic sign. It will be taken from a Christian Biblical point of view. The 'Red Dragon' anomaly appearing in the constellation Virgo that is currently blocked out by GoogleSky might be related to the fulfillment of Revelation 12. The planets that cross over/out of the 'womb' of Virgo are in direct line to this Dragon Face anomaly. Biblically speaking the Revelation 12 imagery is prophetic with multiple layers of meaning related to prior, present, and future fulfillments according to eschatological studies on this subject. Several notable interpretations will be highlighted below to show its level of depth in meaning. It will consist of the past in Christ Jesus, present with the Church and the Future with Israel. This study nonetheless does suggest that the astronomical fulfillment during the time period of 2017 in the constellation Virgo is referencing the Revelation 12 Sign.

To reiterate, cosmologically the Sun travels the Ecliptic and every September. It traverses through the constellation Virgo as the Moon also travels close by. Around every Rosh HaShanah there will be a close configuration of the Revelation 12 imagery. A more precise one will occur on Rosh HaShana, September 17, 2015 but the exacting one will be in the Fall of 2017. What is significantly and eerily is that you have a blocked-out section in Virgo that seemingly configures to appear like a face of a 'Red Dragon.' The screenshot as shown on the accompanying illustrated chart is taken from GoogleSky along with the blocked-out patch which can only be seen in 'infrared' mode. A more in-depth search on NASA's SkyView telescope will tell what is actually there. The 'Red Dragon' face anomaly does have strong connotations to the 'Sign' as presented in Revelation 12. There will be multiple elements and variables all coming together at the same time with a close approximation of this symbolism on the eve of the Jewish Fall Feast of Rosh HaShana.

Some Observations

- *The area of where the possible 'Red Dragon' face imagery is located at is blocked out on GoogleSky; viewable alternately through NASA's SkyView virtual telescope online.*
- *The blocked-out Red Dragon 'Face' image can only be picked up with the Infrared mode on GoogleSky, thus the actual color of the anomaly is 'Red' in the light spectrum.*
- *The coordinates for the other anomaly, possibly Nibiru (Planet X) in Leo is not viewable in detail with NASA's SkyView website -as its search function and database is disabled at the time this study was originally posted.*

SkyView Telescope

Here is how to use one's tax-payer dollars that paid for NASA's telescope from the comforts of your home, office or underground bunker. Here is the direct link to the NASA SkyView Telescope website at allow one to capture an actual real life image of space using the most powerful government telescopes available. The following are the procedures in step and hyperlinked for easier access.

1) <http://skyview.gsfc.nasa.gov/current/cgi/runquery.pl>

2) Chose the [SkyView Query Form](#) link
or: <http://skyview.gsfc.nasa.gov/current/cgi/query.pl>

3) Input the coordinates in the box:

[Coordinates or Source:](#)

For the patch of sky that is blocked, the coordinates are at: 13h 50m 44.0s -8 13' 59.7"
Just cut and paste the coordinates as an alternative.

e.g. "10 45 3.6, -59 41 4.2", or "161.265, -59.685" (omit the quotes)

4) All the setting should stay the same but at the IRAS box, chose IRAS 100 micron setting.

5) Coordinates: Use J2000 Setting

6) Projections: Gnomonic Tan setting

7) Other Options: If you want color spectrums, you can select color ranges. Play around with them as you can get some amazing details from them.

8) Submit Query Form

9) Image will be returned. *SAVE!* As it has been known that such areas get blurred out or doctored by NASA, Google, and NSA.
