

KAISER PERMANENTE PEDIATRIC VISION CARE

(Services only rendered at Kaiser Permanente for Kaiser Permanente Vision Essentials)

Affordable Care Act (ACA)–qualified health plans include vision benefits and medical care from trusted Kaiser Permanente optometrists and ophthalmologists. You can connect vision care to overall health with Vision Essentials by Kaiser Permanente. Because our optometrists and ophthalmologists work with our integrated care system, they're connected to our larger team of medical professionals. Regular eye exams can detect not only vision problems, but symptoms of other important health issues.

Services must be performed and provided by a Kaiser Permanente provider for children who are under the age of 19 and are covered under an ACA metal plan. They'll have their choice of either regular clear eyeglasses or contact lenses from the Value Collection to serve their vision needs.
