

## Company Profile and Mission

Rhea Engineers & Consultants, Inc. (Rhea) is a 100% woman-owned professional corporation providing civil, environmental, water resources, electrical, mechanical, geophysical, and geotechnical engineering and consulting services. Founded in Pittsburgh, Pennsylvania in 2001, Rhea provides sustainable, innovative, and cost-effective solutions to clients ranging from federal/state governments to Fortune 1000 companies, from universities to authorities to engineering-architectural firms. Our work has spanned the world, and Rhea takes a global view of project challenges, allowing us to quickly evaluate and resolve issues.
