

OPERATION PILLAR OF CLOUD

It is very interesting that Israel chose to call or name for the military operation against Hamas, 'Pillar of Cloud' or Defense. The 'Pillar of Cloud' is a reference to the YHWH's protective 'shield' or dome if you will while the Israelites were sojourning throughout the Wilderness. In the Wilderness, when Israel was headed toward the Promised Land, YHWH's presence was manifested in the Pillar of Cloud by day and a Pillar of Fire by night. Interestingly, the formation of the Tabernacle and the camp was organized and divided in a military fashion; by tribes, elders, leaders, units etc. The Pillar of Cloud was like a 'dome' or a shield of protection for the entire nation. It protected the Israelites from the intense desert heat and sun during the day. It also was a shield or 'dome' of protection from the severe cold at night and wild animals. Much like in the time of the Wilderness journey for Israel, the 'Iron Dome' missile defense system, like the Pillar of Cloud then is protecting Israel now. This 'shield' kept the enemies of Israel from infiltrating the Camp. Hamas has been lobbing rockets at Israel for the past decade. The difference now is that Israel does seem to have an effective shield against them. Although the Iron Dome is not 100% effective, it did intercept and destroy around 90% of the rockets that were launched from Gaza. This escalating conflict could very well lead to a larger regional Muslim-Jewish war at some point. Perhaps these escalating exchanges between Gaza and Israel over the past decade will culminate in the foretold Psalm 83 War. It appears that the main players and conditions are just about now in place for it to occur. This has a huge Biblical significant implication. Perhaps it is a sign of just where National Israel is with respect to the reconciliation and redemption from YHWH. This reconciliation and redemption will only come about at the 2nd Coming of Jesus Christ. It will be the time when 'They will look on me, the one they have pierced...' -Zechariah 12:10

INEVITABLE ESCALATION TO THE PSALM 83 MUSLIM-JEWISH WAR

In the Bible, Psalm 83 describes a scenario where all the 'Inner-Ring' of the Muslim around the territory of Israel will amass together to attack Israel. The sole purpose is to 'wipe Israel off the map'. This rhetoric was in place 3000 years ago and came from the same root hatred for not only Israel but the GOD of Israel. Perhaps it was the case during the times of Philistia when *Asaph* wrote the Psalm. Yet it echoes down the centuries to a time in the *Last Days* when such a scenario will culminate in the modern era against Israel.

THE CONSEQUENCES
The globalist *Arab Spring* has been nothing more than a re-shuffling of the game pieces of the Middle East map in order to surround Israel with extremist Islamists. With each successful round of conflicts and cease-fires, the Psalm 83 War comes into sharper focus. Perhaps at that time, the Isaiah 17 destruction of Damascus ensue that will culminate in the 'Confirming of the Covenant' with the AntiChrist at some future day. The growing escalation of the Muslim-Jewish conflict will come to a head in a full blown regional war that perhaps might involve nuclear weapons. The countries that surround Israel are just about in place for the Psalm 83 show-down.

A FALSE SENSE OF SECURITY

The Israeli missile defense system is so far having a 90% kill rate at intercepting missiles from Gaza. This could case a false sense of 'security' for Israel as it relies on its technology to 'save' Israel.

ROCKET WARFARE

Nearly all the rockets fired from Gaza have been smuggled from either Egypt or Iran. From 2000-2008, more than 4000 mortar bombs were fired into Israel from Gaza. In March 2012, more than 300 rockets were fired on Israel. Due to the smuggling efforts and aid by Iran, it has given Gaza now the technological ability to launch long range missile. For the first time Tel Aviv has come under attack since the 1991 Gulf War. For the first time since the 1970s, rockets reached the suburbs of Jerusalem as the rockets are aimed towards the *Knesset*.

Although *Hamas* rockets are not guided missiles, the mere sounds of siren paralyzes the Israeli society and commerce as well as psychologically effects the civilian population already on edge; shell shocked even. Any nation with such a threat to its civilian population cannot stand idle under this sort of condition.

What has been the tragedy in this decade and past decades of this Muslim-Jewish conflict has taken the lives of thousands of innocent by-standers, mostly women and children that have paid the ultimate price of death for the struggle of the Promised Land. In part, one reason the Palestinian refugee camps have been allowed to continue is to serve the purposes of those in Palestinian leadership willing to sacrifice them for the sake of power.

THE PHILISTINES

The Palestinians are caught in a crosshair of the *Globalist* chest game. They have been used as pones in a deadly game of thwarting the Will of YHWH. The Palestinian Authority gets billions in aid from the US, EU, the UN, China and the Arab League, Saudi Arabia, Dubai, and UAE. Yet the Palestinians are being kept in squalor and poverty in UN refugee camps for 4 generations now. No other Arab nation will take them. The Palestinian refugee problem is a 'cash cow' for the corrupt leaders of the former *PLO* and now *Hamas*. They become wealthy from the misery of an ancient people kept in poverty. Travel is restricted and it is hard for Palestinians to immigrate. The conditions of the Palestinians are blamed on Israel. Israel has transformed itself during the same time, to an exporter of high tech, agriculture, established tourism.

Instead, they have been used to milk billions from the

HAMAS ISLAMIC RESISTANCE MOVEMENT
In 2006 Hamas took power over PLO backed Fatah party. Hamas like Hezbollah began after the 1st Intifada or Muslim uprising against Israel over the Temple Mount. Hamas is a direct off-shot of the Egyptian Muslim Brotherhood. It is alleged though that MOSSAD had a hand in fomenting a counter-weight to the PLO. Egypt has affiliated and come to the aid and support of Hamas against Israel. The aim and premier goal of Hamas is not only to 'liberate' Palestine or Gaza from Israel, but to establish an Islamic state instead of Israel. Hamas rejects Israel's right to co-exist, much less exist.
