

Garden Design is seeking an energetic entry-level Landscape Design Associate. This position requires you to work directly with clients to manage multiple projects and designs. Our goal is to have satisfied clients and build relationships with professional service.

**PRIMARY RESPONSIBILITIES:**

- Design plans and design packages for residential builder communities
- Prepare CAD drawings, plant palettes and digital imagery
- Participate in client presentations when appropriate
- Working responsibly alongside sales, project managers, principals and fellow designers on meeting client demands.

**JOB REQUIREMENTS:**

- Passion for Landscape Architecture & Planning
- Degree in Landscape Architecture or related field preferred
- 0 - 4 years experience in landscape architectural design or related field
- Proficient with computer software programs including AutoCAD and MS Office Suite
- Adobe Creative Suite, Sketch Up, and Land F(x) experience a plus
- Must have strong organizational and problem solving skills. Ability to multitask, prioritize and work under pressure.
- Knowledge of DFW area plants and how to create a planting plan
- Strong work ethic
- Effective oral and written communication skills
- Can communicate effectively in tough situations with both internal and external groups
- Must be self-motivated and able to work independently, but should also be able to collaborate in a studio environment.

Garden Design is a passionate and award-winning group of landscape professionals. We have been enhancing nature's beauty since 1993. Serving both residential and commercial clients, our team of experts loves what they do, and it shows. Installations are well organized and completed in a timely manner. An appreciation for a variety of plant life, from traditional to

exotic, and Texas native creates a unique and diverse portfolio and speaks to our philosophy that no two jobs are the same.

We are an equal opportunity and drug free work place.
