

**Veterans of Foreign Wars Auxiliary
AUXILIARY COMMUNITY OUTREACH**

May/June 2021

www.wivfwaux.org

The Auxiliary year is almost over; however the work as a volunteer is an endless activity.

What have you or your Auxiliary done to enhance the quality or value of someone's life? How have you made an impact? Look around your neighborhood, to see the infinite possibilities of how different groups have improved the workings of the city.

As COVID Restrictions slowly loosen and the weather improves, there are more opportunities to volunteer. We can get out for walks to see where there may be the need to help. We can possibly help by offering to walk the neighbor's pet or maybe distribute flyers for a community spring/summer event.

Never stop volunteering, for that in itself reaps its' own benefits.

Volunteering gives you away to help others. It helps improve your community. It can be a way to meet new friends. It often results in personal growth. It gives you a way to gain work experience and learn more about certain jobs. It allows anyone, young and old to do it. Participating can have a positive impact whether you live in a rural community, suburb or city.

It all begins with a simple little phrase. "What can I (we) do to help?" This can be the beginning of Auxiliary Community Outreach. What impact will you have in making a person or community or group smile?

Volunteer and **"Soar Like an Eagle for Veterans"** to continue **"Honoring Our Mission to Serve Veterans."**
