

## Introduction

### Clean Lock Sanitary Rotary Valve

The Sunco Clean Lock Rotary Airlock is designed for sanitary/hygienic applications, where cleanliness is a primary concern. It is a modular design engineered specifically for the food, chemical and pharmaceutical industries, where cleanliness, both internal and externally, must be to a high standard.

All internal and external surfaces are fully machined, creating a smooth surface with no lodgment points. A quick-release rotor is standard, which allows for easy cleaning with minimal downtime.

#### **Standard Features:**

- ◆ Compact, Modular Design
- ◆ No Lodgment Points
- ◆ Constructed of Cast 316 Stainless Steel Body and End Covers
- ◆ All Internals Surfaces are Fully Machined with all Welds Ground Smooth and Polished to a 180-Grit Finish (Other finishes also available)
- ◆ All External Surfaces are Fully Machined with Polished Finishes Available Upon Request
- ◆ Quick-Release Stainless Steel Rotor for Fast and Easy Accessibility and Cleaning
- ◆ Direct-Coupled Drive, making the unit more Compact and Minimizing External Cleaning
- ◆ Outboard Bearings for Non-Contamination
- ◆ Food Grade Seals and Packing
- ◆ Sizes Ranging from 3" to 10"

*(2" Clean Lock Shown w/o Motor and Drive Arrangement)*
