

Bleach Spot Color Correction

This is a very common problem from household bleach or other chemicals being spilled on carpet that results in unsightly faded spots. These areas may appear as white, orange, or yellow spots on your carpet. PGF Carpet Care is able to restore these spots, and we can bring them back to an excellent color match, regardless of your carpet color. Our services will eliminate the need of premature and unnecessary carpet replacement.

PGF Carpet Care is fully qualified to analyze your carpet and determine what can be done to correct the discoloration. Call us so that we can help bring your carpet back to a pristine appearance.
