

The Farm at Creekside HOA Yard of the Month for September 2020
David and Kimberly Dolan
2516 Eagleview Circle.

The Dolans moved into their home in October of 2005.

Shortly after their move, Dave and Kim planted five trees in the treeless backyard. The front yard contained large aspen trees when they arrived, and although they provided excellent shade for the house, the mess they made throughout the Spring, Summer, and Fall seasons proved daunting. When the aspens began to die a few years ago, the Dolans chose to remove all of them as well as an ash in the backyard that was dying (not due to emerald ash borer).

They replaced the aspens with a Columnar White Fir, a Linden tree, some boulders, and mulch to bring balance to the yard. The Dolans strive for an orderly, low maintenance lawn allowing the flowering bushes and few perennials to display their color throughout the spring, summer, and fall seasons.

Congratulations to Dave and Kim, Yard of The Month, September 2020.
