

Blue and White Army attributes

If you become a member of TWEHC, please be reminded of what that means and what you are signing up for!

- **All members must play within the rules and respect officials and their decisions.**
- **All members must respect opponents.**
- **All members must respect one another in the club, and if you have any concerns must approach your captain or a committee member to discuss.**
- **You are agreeing to be a part of the TWEHC Blue and White Army, not just one team. Therefore it's encouraged we all support one another whatever level we play.**
- **Those who attend training, and are committed to matches each week may take precedent over those who don't train, or lack commitment as we recognise the importance of playing together as a team.**
- **Members should keep to agreed timings for training and matches, and inform your captain if you are going to be late or unable to attend.**
- **Members must wear suitable kit for training and matches. For the personal safety of outfield players, this must include the use of shin pads and gum shields.**
- **All players must notify their captain/coach if they are carrying or have sustained an injury prior to taking part in any game/training.**
- **A return to playing matches post injury will be discussed individually with the team captain and committee members.**
- **Members must pay subscriptions and match fees promptly.**

I have read and understood the above and want to be a part of the Blue and White TWEHC family!
