

**Airport Report
Garnett Industrial Airport
October 2020
Pat Schettler – Manager**

1. Completed October Commission Report
2. Completed October fuel transactions and invoices.
3. Sent weather data to the National Weather Service.
4. Reviewed and updated Based Aircraft on FAA website. No change.
5. The AWOS system is operating nominally.
6. The airport's farm ground lessee Dudley Feuerborn's soybeans turned out great and the milo looks great also.
7. Fuel sales have slowed due to the construction and poor weather but the city is still selling some fuel. We are set up pretty good for the winter.
8. Work on the damaged Bonanza is continuing. The Bonanza is the aircraft that was involved in the runway accident where they were unable to stop and ended up on 4th street.
9. We are getting close to announcing a new (to us) car for the airport use.
10. I am talking to another pilot about hangaring his aircraft at Garnett. He has a new \$500k Carbon Cub, which is a purpose built outback plane. Basically is a light aircraft with a large engine that can get in and out of very short unimproved landing areas.
11. Mowing is completed for the year and I will be starting to perform maintenance on equipment to get ready for next year.
12. Aerial applicators finished operations for the year.
13. Kept organizing the records. It is going to be an ongoing project.
14. Hangar #7 is hooked up to the city's gas line and they are in the process of getting insulation and heaters installed in their hangar.
15. The Lake Garnett Grand Prix Autocross event on Oct 10th was a great success! We had many folks come out from the community to watch and compete in the event. I think they had over 50 cars enter in the two events on Saturday.
16. The fueling apron project has started with Hamm Construction doing the excavation and dirt work for the project. My idea of placing the millings from the existing apron was a failure in that there wasn't enough asphalt left to not have it full of dirt. In many places there wasn't more than a 1/2 inch of asphalt. The thickest we found was 2 1/2 inches and it was crumbling. We also encountered MANY wires and conduits which were all dead and were left over from other projects or abandoned electric lines. We did find an old abandoned 3 inch gas line running E-W on the north side of the apron. Through a local historian, we found that this was the original gas line from the gas wells east of town from 1905. She found an old article that showed the line coming in on rail cars to supply gas to the city.
17. I definitely want to thank the city crews for coming out multiple times helping to locate lines and filling me in on the layout of electrical lines at the airport.
18. I have updated the Garnett Industrial Airport Face book page with daily Hi/Lo temps and rain totals. Anyone on FB can access the previous days weather, weather totals and the forecast.
19. Total moisture for Oct was 1.96 inches. 5 inches of snow.
20. Average High temp/ Low temp = 64.9/ 47.3 .

Flight Activity

Several currency flights by local pilots. One solo flight was accomplished by an experienced local pilot getting back into flying. It is good to see him flying again!
Transient flights have started to slow due to the construction.
A Couple Sonex aircraft traveled up from Arkansas and looked at hangars.

Recommendations

1. Building new hangars to facilitate new aircraft.
2. City Hangar and Airport Shop roofs. (pursuing grant from KDOT).
3. Heights and Hazard documentation for the FAA.
4. Setting up the foundation for a new Runway.
5. Set up an Emergency Contingency Plan and Bird Mitigation Plan to lower Airport Insurance costs.

GARNETT AREA CHAMBER OF COMMERCE

Current Member count is 102! I have received more inquiries about membership and our Chamber Bucks Program. I am also connecting with other Chamber Directors to learn about their membership programs, benefits, education, training, and other ideas to create more value for our businesses as members. I am working with a couple of our businesses on a possible video presentation on finances.

The Community Give Back Program the program will continue until funds are depleted. I would like to thank everyone within the community for their continued participation and support of this program. Your support of the local business community is greatly appreciated.

Weekly eblasts and monthly duties continue, including keeping bank accounts current, social media active, and keeping in contact with businesses to meet their needs. We continue to reach out to members, assist with training, websites, and finding the right resources. The Chamber has been working hard to provide information to our businesses, keeping our website updated, and assisting business owners as the opportunity arises.

The Chamber is currently offering online advertising on their website, and Business Spotlight opportunity. Contact the Chamber office at 785-448-6767 for more information.

Chamber Board elections will start soon. The Chamber currently has one vacant board seat, which is available to any Chamber Member in good standing. Contact the Chamber office if interested. Information was sent out via eblast last week.

The name has been chosen for the 50th Annual GACC Christmas Parade. "Golden Christmas Memories: 50 Years of Joy". The Chamber congratulates Bree Schafer and Carter Hermann for their Name the Parade entries. Both winners received \$25 in Chamber Bucks and will ride with Santa in the parade on November 28, 2020. The Chamber congratulates our Grand Marshals for 2020, Chris and Natasha Goetz.

Chamber Board and Tourism Meetings are continuing, as well as Anderson County Covid-19 Task Force, LWL, and Morning Mingle and ACT Work Ready Community Committee.

Currently assisting Susan with welcome bags We are working to update the website and calendar with event changes and cancellations. Susan and I attended the TIAK Virtual Conference and I look forward to utilizing what we learned in future tourism and community development marketing. We are currently taking the Lead for Change course through the Kansas Leadership Center, and I hope to build on the skills I learned at Leadership Edge last year.

Welcome bags with Garnett information are being distributed for new residents, events, and the campgrounds. If you have information(businesses) that you would like distributed in these bags, please contact the Chamber office. I encourage you to participate, whether it is a gift card, brochure, coupon, etc. This is an easy way to market your business. Also, these items are provided upon request when there is an inquiry about your business.

The Chamber will be sending out membership information soon, and we look forward to working with our members in 2021.

As 2020 is ending, I look forward to new beginnings in 2021. It has been a difficult year for all, and I plan on putting forth extra effort to bring positive change and hope to the community next year. I thank you all for your hard work and effort to lead our community during these challenging times. I am grateful to have the opportunity to work with truly amazing individuals who truly care about our future, and work tirelessly to ensure our health and safety.

Respectfully submitted by:

Kris Hix, Executive Director

Small, Serene, Simply Garnett.

CLERK'S CORNER

October Monthly Report

For the month of October, we had 12 new Utility Customers in Garnett. We had 260 Delinquent Notices mailed out for not paying by the 15th of the month. Out of 260 delinquent notices, we had 15 utility customers who did not pay by the 25th of the month. Out of those 15, 2 have yet to pay and are still disconnected.

I have completed the second course of the Kansas Leadership Center, Lead for Change recently as well as the Virtual HR Conference put on by Pitt State University. Although I am on information overload, I feel both the Lead for Change and the Virtual HR Conference were very informative. To stay on the professional development topic, I have also registered for year 1 of the CCMFOA (City Clerks and Municipal Finance Officers Association) Conference which starts November 9th. This conference is one week per year and to graduate, you must attend all four years of the program to receive your CMC (Certified Municipal Clerk) designation. With the conference being virtual this year, I jumped at the opportunity to get that ball rolling.

Lastly, I would like to thank you for approving the Email Billing module at the last City Commission Meeting. Over time, this will be a great asset to not only our staff but our community as well. Everything seems to be moving in the direction of contactless, especially with COVID-19 and this will only help in that process along with cost cuts in the paper and postage expenses. As we move forward, we will be looking at other options and ways to try and trim some more of those costs as well as improve some efficiencies.

Thanks
Travis Wilson
City Clerk/Municipal Court Clerk/HR Director in Training

Report for Commission

By Susan Wettstein, Community Development & Tourism

November 3, 2020

The Kansas State Tourism Conference was held for two hours on Wednesdays during the month of October.

I am attending the Lead for Change leadership class held virtually on Tuesdays. It began on October 27 and will end November 24. Then I will attend Equip to Lead, the final class offered by the Kansas Leadership Center through the City's grant on December 1-3.

The Tourism Advisory Committee meets today, November 3, at 4:30 p.m. Revisions to the TGT application and process and strategic planning is on the table for discussion. The main reason for this is to extract better data from the application and after-event reports to better understand the impact these events have, as well as the ROI on TGT investment. Travis Wilson will not be serving on this board after his term expires, so we are looking for a volunteer to fill this position.

The Prairie Spirit Fall Ultra Races were held on October 24th on the trail with over 300 finishers. There were over 100 that finished the 50K, about 40 did 50 miles, while over 25 ran 100K, 45 ran 100 miles. They have given tentative dates to me for 2021.

Special thanks to Rosie and Darren Elliss of AC CARTS for their creativity and significant time and hard work to provide the Halloween Hooplah on the town square. This socially distanced, outdoor event of activities that also included a Facebook element for those that could not venture out, was very successful. While low on volunteers, The Ellis' did a wonderful job providing a pumpkin contest, scavenger hunt, candy tower, costume contest and eyeball hunt.

Kudos to Bo Harris, who came all the way from Manhattan on October 29 to make the speaker system functional and working from the band stand before the Halloween event. Bo donated a mixer and other items and set up the wireless microphone element and schooled City Manager Weiner, Chamber Director Hix, and me on the system's use. Mr. Harris has spent an incredible amount of time on this project and a significant donation was made by the Lake Garnett Grand Prix Revival towards the first phase of the speaker system. Other entities had verbally committed funds as well. We hope to garner the support to complete the project in the future with additional speakers around the east side of the square.

We have received 14 additional banner sponsorships so far for the *Garnett Remembers* patriotic pole banner project. This project will stop receiving applications the end of this year.

I was asked to move from my office mid-October. I washed vents and return air ducts, shampooed carpet in my destination space and began purging old files for the move. A few days later, I am officially in the opposite side of City Hall, away from most functions of the City. My “new” location is very familiar to be. While it a bitter-sweet last move for me before retirement, I have always found a way to enjoy where I’m planted and once reorganized, I believe the transition taking place will make everyone happy.

I have plans, barring continual changes to my plans, to work on revamping the city website and create a community development element. My department is for the most part absent as I focus on helping other departments with content and visual reach. Tourism, which is very important, needs a serious facelift.

I am working on the 2021 special events calendar as well as some upcoming projects for 2021. I am receiving a few dates, which shows to me that people are looking forward to next year and planning is a great distraction from the present. With the water levels so low at the reservoir, I am on holding off on talks with the boat racing organization at this time. I wish there was consideration and budget funds available to pour additional boat ramp section to push into the water at the north boat ramp. The short length of the boat ramp has been an issue causing numerous ramp closures. Recently, I have received calls asking if the reservoir was closed. The original boat ramp is long and functional for boat access at this time. The north ramp is closed. The south end boat ramp is accessible but due to shallow areas it would be advisable to use caution when boating in that area.

I am in the process of trying to look at all angles of community development and tourism. The present issues and concerns, and how we can address those challenges that will help Garnett be better post Covid-19. Now, during what people view as a crisis, pandemic time, is the perfect time to prepare for thriving in bad times and make good times even better than imagined.

###

Activity report for the month of October 2020.

Garnett Fire responded to five calls.

Two calls were EMS assist. One motor vehicle accident at south lake. One vehicle fire on west 7th. One fire alarm/false alarm at CenturyLink on Oak. We continued to train at the house on Maple street. I want to thank Joseph Wyatt for allowing us to train there. We did some great training that can not be done without a structure. I applied for a SPARKS grant for lost funds from the chili soup supper. If awarded I will use the money for station improvements. I ordered some equipment/PPE that was needed including helmet lights. Roger Montgomery and I filled water barrels for the Grand Prix Revival on 10/9. Him and I worked standby for the whole event with the help of Joe Ray on Saturday and Alex Dennison on Sunday.

Fire Chief, Wes Skillman

Parks/Recreation/Cemetery
Monthly Report November 3, 202 2020

We have wrapped up the fall soccer and football season and it was what I will term as a success. We got through the entire season without great incident and we avoided the COVID bug to complete the season. The new leagues that we joined to make sure we had a fall season worked out great. Of course there were some new rules and stipulations we had to deal with to play but we got it done none the less. We have now started the volleyball season and hoping that it too will go off without a hitch. Then we will move onto basketball which will be a bit more of a challenge especially if we are not able to use the school gyms as we have in the past.

The guys have put up the mowers and are now moving on to some upkeep in the parks. They have cleaned up the spillway and when the weather is right they will burn the grass out to make it look even better since they have removed the trees and smaller brush. We are doing some dirt work out at the cemetery and have plans on working on some of the stones to get them set back properly. We also have been in contact with a landowner out at the reservoir that we share a fence with and will be working with them to clear the fence out so he can repair and replace parts that have been neglected over the years.

I have switched offices at City Hall and will soon transition to the Recreation Center as soon as the new flooring has been put in. This should be the middle of the month. We have remodeled a bit by adding a door from the current office to where the new offices will be. We are looking at our pricing and what we offer to possibly make some changes come the first of the year. We are looking at adding class fees into the memberships and this will make it easier on both us and the instructors to make sure the programs are making money. We are also looking at restructuring the personal training that Sami Jo offers once we are out there full time. We have added a couple new "to us" pieces of equipment to the cardio room. We have replaced an old treadmill and elliptical with a couple that we have bought off Purple Wave. They are both in good shape and are commercial grade so they should last for quite some time. This is just in time for those with the New Year resolutions to come in and get fit.

We are keeping an eye on the COVID numbers and making sure that we are doing everything at the recreation center that we can to keep people safe and healthy. We are ramping up our cleaning with the new surge in numbers. We are also screening everyone that comes in for the volleyball games and requiring them to wear a mask as they cannot social distance in the bleachers. The first week was very successful and we are hoping that the rest of the season goes the same way.

If you have any questions please feel free to contact me

Thanks
Phil Bures
Parks and Recreation Director

City of Garnett
Monthly Report
Garrett Gross, Building Official, Zoning Administrator

11/3/20

The Zoning Appeal Made by Derrick Holland, after following due process was voted on by both the Planning and City Commission, it was passed, and the lot located at 602 E 6th Has been Rezoned from a R-3 to a B-1.

I am currently working with KwiKom on permitting and acquiring the information needed from them to ensure that the upcoming Communications Service project is done safely, correctly and in accordance with our adopted codes.

I am working on reaching out to all land and property owners that will be effected by the new Floodplain Map as well as creating an informative bulletin that will illustrate how the process will work and a time line of opportunities to appeal and comment on the new suggested map.

As always, I have continued to assist with answering questions on permit and zoning requirements, regulations and fees and have been completing inspections and reviews as needed by contractors.

I have begun reviewing our Zoning and Subdivision Regulations and will present contradictions and suggestions to the appropriate boards as needed.

If you have any questions, please feel free to contact me

Thank you
Garrett Gross
Building official, Zoning Administrator

GPD Monthly Report for October 2020

October 02, Officers took a report of a stolen vehicle. Through the investigation, the vehicle was located in Burlington, Kansas. After the execution of a search warrant, the vehicle was recovered. This case has been forwarded to the County Atty for charges.

October 03, Officers were dispatched to an erratic driver. Upon stopping the vehicle, the driver was arrested for illegal tag, no drivers license, possession of Marijuana, Possession of Paraphernalia, and transporting an open container. This case was forwarded to the City Atty for prosecution.

October 04, Officers stopped a vehicle for speeding 52-mph in a 30-mph zone in the 100 blk N Maple St. Based on the stop, the driver was evaluated for DUI. The driver was ultimately placed under arrest for DUI, transporting an open container, and Reckless Driving. This case was forwarded to the City Atty for prosecution.

October 04, Officers stopped a vehicle for texting while driving. The driver and sole occupant was found to be in possession of Marijuana, drug paraphernalia, and minor in possession of alcohol. This case was forwarded to the City Atty for prosecution.

October 05, Officers were ran off of US-169 as they were driving around Garnett. Attempting to stop the vehicle, a pursuit followed. The vehicle eventually pulled over roughly 18 miles from the start of the pursuit. The driver was arrested for Reckless Driving and Flee and Elude Law Enforcement. This case was forwarded to the County Atty for prosecution.

October 12, Officers took a report of theft of a license plate. Officers located that plate on a vehicle later in the day. The owner of the vehicle admitted to taking the plate and putting it on his van as he received a nuisance letter about his abandoned vehicle on his property not being legally tagged. This case was forwarded to the City Atty for prosecution.

October 13, Officers responded to an accident on K031 in front of the High School. There, Officers were told the driver was eating and not paying attention to driving when he went off the roadway, struck a speed limit sign and a utility pole before going airborne

and landing in the ditch. The truck was totaled. The driver was cited for Careless Driving. This was forwarded to the City Atty.

October 16, Officers observed a vehicle drive around the train crossing arms on E 7th Ave. The driver was stopped and arrested for Driving while Suspended 3+, No insurance, and Driving around a Train Crossing. This case was forwarded to the City Atty.

October 16, Officers were contacted about an inappropriate relationship between a 45-year-old male and a 14-year-old juvenile. Melvin James Gray was arrested and charged through the Anderson County District Court with three counts Aggravated Indecent Liberties with a Child, and two counts Criminal Sodomy. This case has been charged. *see press release for more details*

October 17, Officers responded to a call at a local business with intoxicated juveniles. The three juveniles were charged with DUI, possession of illegal drugs, and possession of alcohol. This case was forwarded to the County Atty for prosecution.

October 17, Officers stopped a vehicle for traffic violations. The driver was found to be DUI Drugs. The passenger was found to be in possession of Methamphetamine. Both were arrested. This case was forwarded to the County Atty for prosecution.

October 18, Officers attempted to stop a vehicle for traffic violations. That vehicle fled from the officers and ended up crashing at South Lake. The driver was arrested and charged with a multitude of traffic offenses. This case is being prosecuted by the County Atty.

Based on the above incident, a search warrant was drafted for the residence the vehicle returned to. There, Officers recovered numerous stolen items. This case has been charged. *see press release for more details*

October 26, Officers stopped a vehicle for traffic violations. The driver was tested and arrested for DUI. This case was forwarded to the City Atty for prosecution.

October 31, Officers stopped a vehicle for traffic violations. The driver was tested and found to be under the influence of a drug. They were arrested for DUI Drug. This case was sent to the City Atty for prosecution.

Throughout the month of March, there have been 4 reported vehicle burglaries, with more not reported. It is believed juveniles are responsible for the crimes based on what has been taken and that they started when school was dismissed for the year. GPD is actively working these cases.

For the month of October 2020, GPD took a total of 214 calls for service, conducted 59 traffic stops, and had 20 calls of service for animal control

Kurt King

(785) 448-0088*

On October 18, 2020, at about 0207 hrs, Officers with the Garnett Police Department attempted to stop a vehicle for traffic violations. That vehicle led officers on a short pursuit until it crashed at the entrance to South Lake.

Based on the evidence obtained during that stop, along with a subsequent search warrant, numerous pieces of evidence were seized, and cases were solved.

Garnett resident Orion Cruz was charged with three counts Burglary to a Vehicle, three counts Theft, and three counts Criminal Use of a Financial Card.

Garnett resident Jacob Lubas was charged with three counts Burglary to a Vehicle, three counts Theft, and three counts Criminal Use of a Financial Card.

Both are being held at the Anderson County Jail at the time of this report.

The Garnett Police Department still has one firearm that has yet to be claimed that was recovered in this case. If you are missing a firearm from your vehicle, please contact the Police Department to claim ownership.

Lt/Det T. Turner

Oct 2020 Monthly Report Public Works

Public Works General-

Working on uniform proposal.

Pallet Sales?

Reached out to other departments regarding potential purple wave sales.

Middle term goal- 3 licensed operators for plants at all times.

Middle term goal- all fleet vehicles serviceable or disposed of.

Long term goal- replacement of bare steel lines.

Long term goal- I&I. Going to begin with replacing manhole lids with holes.

Gas and Water

3 code enforcement work orders.

1 easement cleaned

1 Gas/Water Distribution operator taking KDHE OP III Exam Dec 17th

2 Fully OQ Gas/Water Operators

1 Gas/Water operator working on getting on-call OQ'ed.

Changes to OQ book, safety protocols, record keeping protocols.

6 Gas meters changes.

1 Gas line updated.

8 Water meters changed.

1 Gas leak repaired.

1 Water leak repaired.

3 meter re-reads

38 Locates.

10 meters checked for proper function.

1 Water tap.

1 Gas tap.

2 water/gas lines inspected.

1 Hydrant repaired.

Public outreach- (3) explanation of water pressure and cleaning of inside screen faucets.

Assisted airport with multiple locates. Harvesters. Meals on wheels.

Assisted at court house when contractor hit gas line.

Repaired small gas leak on city line saving revenue dollars as gas was unsold and going to atmosphere.

Inspected raw water intake line. (Important, as a leak in raw water line means wasted energy \$ by lost pumped water)

Mowed all gas+water responsibilities one more time before fall. (Thanks to park and recreation for mower loan).

Assisted refuse with crewing for 1 full day, 1 half day. Assisted refuse with trash truck retrieval from Merle Kelly.

Assisted director with transporting f-150 to and from Penka motors, making truck serviceable again and potentially extending fleet life by having more running vehicles.

In-house repairs to backhoe, preventing a service bill.

Outreach to City Hall (1)- helped with office move.

Snow removal park/library/train depot.

Refuse

165.37 tons of solid waste picked up and disposed of.

3 hoppers placed, dumped, and removed for Grand Prix weekend of October 9-11th.

Assisted gas and water with emergency gas meter repair 10/8/20.

1982 trash truck in for brake repairs to allow for redundancy and holiday trash service.

Assisted with 2 code enforcement work orders.

Oil/filters changed on (2) trash trucks to extend fleet life. COVID19 closure is delaying preventative maintenance of the third. NOTE: now buying filters for trash trucks through amazon business do to closure of local napa.

Switched one (1) yd hopper for (2) yd hopper.

Assisted Gas and water with backhoe repairs.

1 Refuse Operator cross-training with streets.

Provided approximately 2 year's worth of rags to gas and water at no cost to city except labor.

Trained Public Works director how to operate trash truck controls.

Handled 2 sewer plant call outs.

Refuse Crewing for thanksgiving week is scheduled.

Streets

2.19 tons of debris picked up and disposed of.

Assisted Gas and Water with 3 water leaks.

Reviewed and modified public works laborer job posting before placing job advertisement.

3 code enforcement work orders.

Preventative maintenance on 2 Gas and Water trucks.

Repairs to 1 refuse truck.

Repairs to 1 gas and water truck

1 easement cleaned.

Outreach to City Hall (1)- helped with office move.

Snow removal.

Clean up week.

Patching potholes in alley.

Installation of 5 new dead end signs.

Preventative maintenance to City inspectors truck

Preventative maintenance to Parks and Rec truck.

Wastewater Utility

9.14 Million gallons of water treated with no permit violations.

7.34 million gallons of non-potable re-use by ethanol plant.

1.8 million gallons discharged by plant.

Assisted streets with using TV camera.

21. 97 tons of biosolids dewatered and disposed of in accordance with 503 regulations.

1 Wastewater operator will have 10 KDHE CEU's by December.

40 locates.

360 feet of sewer main jetted.

KLC leadership training completed by sewer foreman.

Public outreach (1) harvesters.

Purple Wave contacted with regarding to 79 ford flatbed and 85 ford F150

Repairs needed on screw press for dewatering process.

Repairs needed on bar screen.

Participating in KDHE COVID19 study.

Water Utility

18.2 million gallons of water treated in compliance with the clean drinking water act.

1 Water operator taking KDHE exam on December 17th.

Modifications to benchsheet to accurately reflect sample locations and chemical feeds.

Speccking out lab equipment, other items with regard to new water plant.

VFD/Pressure/Volume study for distribution system.

Repairs to chlorine feed system.

Chlorine burnout complete.
