

Product Specification Sheet

Specifications:

Vendor Parts Number: MAB

Construction: TIG-welded high strength steel.

Adjustability: Head-section 45° above & below horizontal; Foot-section 15° above and 45° below horizontal.

Assembly: None required.

Product Dimensions: 60" (L) x 20" (W) x 32" (H). 70 lbs.

Shipping Dimensions: 56" (L) x 24" (W) x 36" (H), 125 lbs. (Class 125).

SHIPS VIA TRUCK 

Application: To restore functional qualities used in activities of daily living.

Functions:

The RehabPro Multi-Angle Bench assists spine extension training ranging from gravity assist to gravity resist. The two long sections adjust separately assisting joint mobilization where counter curves are required. They "lock" in place with a double safety mechanism. The split head section allows numerous shoulder exercises in prone with the cervical spine in neutral. The posterior stabilization bolster adjusts seamlessly along the length of foot-section in order to stabilize the legs above the knees where this is required.
