

RTS TACTICAL LEVEL III+ RIFLE SPECIAL THREATS MINI SHIELD

In a world facing rising threats, the RTS Tactical Mini Shield™ emerges as the ultimate defender for the Modern Hero.

Conventional police shields are commonly limited to NIJ Level IIIA, offering only handgun protection. Agencies that field rifle-rated shields often receive polyethylene-based solutions, which are effective against certain rifle rounds but have a critical gap: they fail against the steel-core 5.56x45mm M855 (Green Tip), a prevalent rifle threat faced in the field.

At RTS Tactical, we've Raised The Standard. Our compact Level III+ Rifle Rated shield is engineered and designed specifically to defeat the M855 Green Tip, while still delivering the lightweight mobility officers demand. This ensures true rifle protection in scenarios where polyethylene-only shields fall short, giving officers confidence that their shield will perform against the threats they're most likely to face.

Made in the USA and deployed by hundreds of departments nationwide, the RTS Tactical Mini Shield™ is built to protect those who protect us.

- 

COMPLETE SURFACE SHIELD
- 

EXCEPTIONAL MULTI-HIT CAPABILITY
- 

SHIELDING ENCAPSULATION
- 

RELENTLESSLY ROBUST AND DURABLE

SUPERIOR MULTI-HIT RESISTANCE
RTS Tactical Steel Armor excels in its ability to withstand multiple high-velocity rounds, a capability that surpasses other materials like Ceramic or Polyethylene. This steel armor remains unbroken and effective under intense fire.

ENHANCED DURABILITY
In terms of durability, Steel Armor is unrivaled. It retains its ballistic properties despite being dropped or subjected to rough handling, ensuring consistent protection.

COMPREHENSIVE SURFACE COVERAGE
Steel Armor, crafted from a single solid steel piece, offers complete surface protection. This is a significant advantage over Ceramic or Polyethylene armor, which may not provide uniform coverage.

ENCAPSULATING PROTECTIVE COATING
Our Steel Armor is coated with a highly durable polyurea layer. This coating not only minimizes the risk of shrapnel escape but also shields the steel from moisture, enhancing its longevity and effectiveness.

SHIELD SIZE	SHIELD WEIGHT	SKU
SMALL: 12" x 18"	11 lbs.	RTS-57610-11
MEDIUM: 14" x 24"	16.9 lbs.	RTS-57620-11
LARGE: 16" x 30"	23.3 lbs.	RTS-57630-11
