- Recovery and Crisis Support

HOW WE WORK

A PERSONAL APPROACH: We treat every client as an individual and develop a personalized path to recovery.

NO BARRIERS TO TREATMENT: We work with any client, regardless of ability to pay. We take pride in putting a priority on ensuring low-income clients have access to services they need.

HELP WITH ALL ASPECTS OF LIFE: We support the desire to change by helping clients with their fundamental needs, including housing, legal assistance, health care, employment — anything that supports progress to a healthy, productive and rewarding life.

FAITH AND REASON: Our professional staff uses research-proven methods to help clients flourish in every area important to them: body, mind and spirit.

WHY WE DO THIS

ADDICTION DOES NOT DISCRIMINATE. It touches every part of our community and it takes an incredible toll on families, businesses, the social safety net, the health system and our quality of life. The greatest cost is to the lives of the people struggling with addiction. And the greatest reward for our work comes in the words of those on the path to recovery:

"I found contentedness, I found peace. I can now be grateful for things. ... So now I know I can recover."

"I could talk to them, I trust them. ... They love their jobs. Everyone that I've known here, they're really supportive."

"I live life and I love life. I love me now. I'm learning to love people. ... The doors have been opened."

"I can wake up and be grateful for being clean and be able to appreciate the small things ... the sunrise, the sunset, the clouds, me, finding who I am."

"When I talk to my family and the staff here, they do say that they see a complete change in me and it just honestly feels really good."

Shine a Light

5:30 to 7:30 p.m.

Thursday, December 5th

Kellogg Hotel & Conference Center
East Lansing, MI

Your sponsorship of this reception provides much-needed funding in support of the nonprofit, life-saving work of **MID-MICHIGAN RECOVERY SERVICES.**

The event features a strolling buffet, short program and a gratifying sense of accomplishment: Your support helps our neighbors to access the help they need to find fulfilling, healthy lives.

ADDICTION IS DESTRUCTIVE RECOVERY IS POSSIBLE **YOU MAKE IT HAPPEN**

With more than 60 years of combating substance abuse in Mid-Michigan, we know this: Addiction does not discriminate. It touches every walk of life and takes a toll on families, our health system, our economy and quality of life.

Based on federal estimates, we can project that about 30,000 people in Mid-Michigan suffered a substance-use disorder in the past year. That's enough to fill the Breslin Center — twice.

Nobody chooses a life of addiction, and finding a way out of it is hard. That's where Mid-Michigan Recovery Services — and you — come in.

We are a team of accredited and licensed professionals who love our work. Many of us have been called to this profession because we are in longterm recovery ourselves. We are proud to count several recovering clients among our staff.

Our mission compels us to serve anyone who needs help, regardless of their ability to pay. Your support extends this work to reach more people through our accredited, licensed and loving efforts.

Just as clients suffering the disease of the addiction know they cannot recover alone, we cannot do this work alone.

See the next page for how you can help shine a light so others can find their way to recovery.

In recent surveys,

98%

of our clients report they stopped using substances or maintained abstinence upon entering our residential or outpatient programs.

YOU CAN BE A PART OF THESE SUCCESS STORIES.

SPONSORSHIP LEVELS AND WHAT THEY PROVIDE

Your sponsorship of our nonprofit organization produces real results: saving lives, restoring families, improving our community. We take pride in serving anyone who is ready to make a change in their life — including the homeless and uninsured. This work would not be possible without your support.

We want you to know what you accomplish and we want to recognize your contribution to helping people discover that RECOVERY IS POSSIBLE.
