High-retention, full sized DIN for A/V input

DirecTV Announces Receiver-less HD Solution

On July 24, 2013, DirecTV officially announced its "Receiver-less HD solution," which takes advantage of ZeeVee's unique encoding technology. DirecTV pairs their H25 receivers with ZeeVee's HDb2540/2520 modulators to distribute HD video in:

- Hospitals / Healthcare Facilities
- Senior / Assisted Living
- On-campus Student Dorms
- Prisons
- RV / Camp Sites

To simplify it for you, ZeeVee is introducing the new DTV package, for use exclusively with DirecTV H25 receivers:

- HDb2540 modulator and (4) H25 cables for up to 4 channels
- HDb2520 modulator and (2) H25 cables for up to 2 channels
- 720p video resolution
- Component Video
- Digital/Analog Audio
- Composite Video (for closed captions only)

AND ... DTV products ship with proprietary AV cables specifically designed for use with DirecTV H25 receivers.
