**Think BIG Spain**

In May 2018 Spain became a new focus for the Think BIG Partnership. Greg Malpass, Managing Partner has moved to the Region to help Corporate and High Wealth individuals invest and relocate to Spain to take advantage of the expected rise in top-end Leisure Residential property. Whilst there has been a slight cooling off period for some British investors and home buyers in view of Brexit uncertainty, there continues to be significant interest from other northern EU countries, Russia and the Middle East, particularly Danish, German, Italian, Irish, French, Swedish, Norwegian, Saudi and UAE nationals.

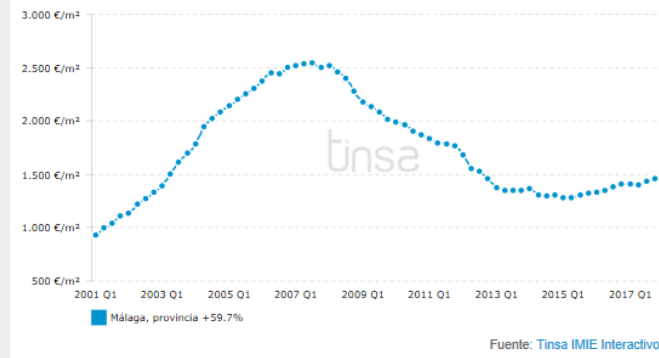

Greg intends to develop an International Investment Group of individuals from its client base interested in Property Futures/Options to not only reap the benefits financially of the expected up-turn but with intent to spend more time in, or relocate to the region by 2020, to enjoy their properties and the benefits that the Investment Group will develop around its retirement community and particularly Golf. Contact Greg for more information.

Marbella Spain Real Estate Market Guide 2018

February 14, 2018 in Articles

Evolución del precio de la vivienda en Málaga provincia

**Think BIG Spain** predicts that leisure property prices will rise above 2007/8 pre-crash levels by 2020, and that high-end quality properties values will benefit the most.

**Think BIG Spain** is currently undertaking a review of Developers and Sites of Premium New Homes available on the Costa del Sol
