When the **BIG ONE** Hits: (Earthquake)

1. Drop, cover, & hold on
 - Protect head from falling objects
 - Get under sturdy desk or table (not in doorway)
 - Stay away from windows & skylights... all glass
 - *Expect strong after-shocks coming soon*
2. Locate family members & pets & assure their safety. (Pre-planned meeting destination)
3. Turn off propane gas at the main valve with wrench (stored at the valve site)
4. Emergency kit (stocked in advance)
5. Important documents, food, water (stored in advance)
