

PROTECTING YOURSELF AS A GRAVITY PIPE ENGINEER OR INSPECTOR

The Canadian Concrete Pipe and Precast Association is pleased to offer this informational seminar for both government agencies and consulting engineering firms.

Who Should Attend?

- Design Engineers/Technologists
- Project Managers
- Contract Administrators
- Construction Inspectors

Learn from industry professionals on how to specify both rigid and flexible underground pipe systems.

At the end of this seminar you will have a better understanding of:

- Assessment of pipe systems
- Rigid and flexible pipe design
- Rigid and flexible pipe installation
- Trenching issues
- Quality and inspection
- Precast Concrete Boxes

How to register:

- 1) [CLICK HERE](#) to register online.
- 2) Email completed form to resources@ccppa.ca
- 3) Fax to (519) 578-6060

Cost: FREE OF CHARGE

Time: 8:30 AM to 2:30 PM

Continental breakfast starting at 7:30 AM and buffet lunch will be provided.
