

THE SIGN OF THE SIGNET - PLANET X

The purpose of this illustration is to suggest that the signet of King Hezekiah found in 2015 in Israel is itself a 'sign' to Israel. It is a recording of what happened in the past concerning the *Sundial of Ahaz* that perhaps is set to reoccur during Israel's last 'King' to rule the world, the AntiChrist. This study seeks to link the event of Hezekiah's illness and the retrograde of the Sun's shadow 10 degrees to a *pole shift* of the Earth. This pole shift is stipulated to have been caused by what King Hezekiah commemorated his 'Royal Sign' with on the signet *bullas*, the 'Winged Sun Disk' of Nibiru. The discovery of Hezekiah's 'signet' could be the 'sign' that a coming pole shift of the Earth will occur caused by a flyby of Nibiru. In 2015, the *Royal Seal* of King Hezekiah of the last tribe of Judah was found in Jerusalem. The signet or seal was found during an archaeological excavation on the Southside of the *Temple Mount* called the *Ophel*. The stamped *bullas* served as both a signature and a 'sign' as a means of ensuring the authenticity of the documents. Have other relics or documents confirmed such a pole shift having occurred in Earth's history? Yes. The *Nebra Disk* also unearthed in Germany's oldest astronomical observatory depicts an occurrence of the pole shift in conjunction to an abnormal solar eclipse. This supposition lends some credence to the notion that such cataclysm events have been the direct effect of the flyby of Planet X or the Nemesis 2nd Sun star system. Although some flybys have been cataclysmic like the *Flood of Noah*, others have not been that disastrous as the orbit of the 2nd Sun varies and it also depends on what side of the Sun, Earth will be on.

THE SUNDIAL OF AHAZ

Hebrew the word is *maalah*, which denotes an ascent by means of steps or stages. And this word 'maalah' is also translated degrees in the context of a circle. The point is that both 'degrees' and 'sundial' are from the same Hebrew word. It was Hezekiah that stipulated that it would be harder for the Sun to regress 10 steps or degrees.

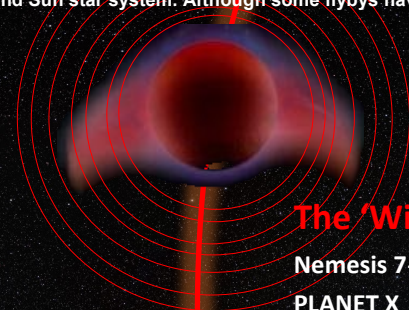

POLE SHIFT

What this study is suggesting is that Sign of Hezekiah was the appearance of Planet X that perhaps is now also the 'Sign' that it will occur again. The following numerical observations are presented for a possible affirmation.

Assuming 360 day/year x 7 = 2520 days
 Assuming lifespan of King Hezekiah was from 715 to 686
 From 2015 when the signet was found to death in 686 = 2700
 Excluding year '0' in timeline = 2700 years
 2700 years - 2017 year of Great Sign of Heaven = 180 years
 Isaiah Chapter 38: God told Hezekiah, 'I will add unto thy days 15 years.'
 This 15 year timespan = 10 degree or 180° months to degree association

THE PROPHETIC SIGN

This study suggests that perhaps, the *Sundial of Ahaz* event pertaining to Hezekiah's illness and recovery was such an event. The point is that in some cases the flyby of Planet X has only been powerful enough to produce a gradual pole shift and from a distance that is undetectable. The Hezekiah signet has a seal impression of a 2-winged disk of a 'Sun'. The ancient Hebrew inscription reads 'Belonging to Hezekiah, (son of Ahaz, King of Judah)'. *בן אחז מלך יהודה* is flanked by 2 Egyptian Ankhs or 'crosses' that allude to resurrection. The *Winged-Disk* is not Egyptian but Sumerian. Was the seal suggesting what the cause was as it was understood in his time, the 'Winged Disk' of Nibiru?

SUN

The size of Hezekiah's 'sign' is relatively small, approximately just over a centimeter or .33 of an inch. This signet was also accompanied by the discovery of 33 other *bullas* according to those that excavated the site. Many suppose that this was either an ancient sundial or an astronomical circle of the *Mazzaroth* or both combined. The backward or retrograde timespan the Sun was to have made amounts to 10 degrees of a 360 circle. This amazingly equals the amount of years granted. Many believe that the Nebra disk records the event of a passing of Nibiru. According to star locations, it shows a solar eclipse, and the tilt of 26 degrees of the Earth on its axis.

What this study brings to the prophetic table is that in the context of 'Signs', the 'Sign' that Hezekiah required was corresponding to the gradual flyby and gravitation pull of the 2nd Sun on Earth to produce a 'retrograde' effect of having the Sun's shadow go backwards 10 degrees or 10 steps. Thus the signet of Hezekiah's royal emblem depicted or celebrated this event by depicting the ancient motif of the 2nd Sun as the *Winged Disk*
