

Volunteer

Raptor Support Team

As in most things, the attention to detail is what makes our organization successful. We have regular maintenance needs in order to keep the Center up and running smoothly, and we have special projects that often take special skills.

Do you have specialized training or own a business and want to help? Contact us to learn what needs are ongoing or to volunteer your skills for upcoming special projects.

Below is a sample list of some of the possible duties for volunteers at the Wind River Raptors Center:

- Cleaning cages
- Maintaining transport boxes
- Building mazes
- Changing substrates
- Pressure washing (everything)
- Disinfecting (everything)
- Building perches
- Building flight runs
- Repairing netting
- Building nesting boxes
- Building display stands
- Maintaining the rescue vehicle
- Vacuuming and sweeping floors
- Scrubbing perches, bath pans, and feeding stations
- Fixing broken lights
- Designing species-specific equipment
- Cutting up food for raptor meals
